# LACQUER

Matt finish kitchen provides a smooth texture to kitchen units and surfaces but without the shine and deep reflections featured in high gloss kitchen finishes. Matt finishes can successfully create subtle, understated kitchen designs, achieving a true sense of refined luxury in these less decedent times. Matt kitchens are easy to maintain, extremely durable and can also be more resistant to fingerprint marks.

High gloss cabinet doors will give your kitchen contemporary and stylish look, enhancing the busy kitchen environment with practicality. The multi-layered painted finish will ensure that our beautiful high gloss finish resists scratches much better than any vinyl gloss door.

Modern, smooth high gloss doors make a real statement, whether you choose a bold shade such as black or red, or a more subtle color. Modern homes look stunning with high gloss doors that are complemented by sleek curved units and accessories such as modern bar handles or handleless designs. These kitchen doors are durable, long-lasting and of extremely high quality to create a kitchen guaranteed to bring the wow factor.

Lacquered materials are available in hundreds of color options, you can even customize your own dream color. This magic finish offer a reflective surface with attractive depth of color that increases your design versatility.

## MELAMINE

A cost-effective option, our woodgrain melamine laminate kitchen range optimises the high-quality associations of a wood kitchen whilst minimising the price.

This finish closely resembles the natural appearance of wood for a warm, stylish and enjoyable living space. Available in various colors, our melamine laminate kitchen doors make a fantastic addition for the home.

These doors also have a highly versatile quality, ensuring a perfect fit when combined with other finishes and styles.

Elegant high gloss or Matt painted door matches with harmonious melamine transport the contemporary architecture of the cabinet into a captivating space. The trendy open shelves and open cabinet is a lovely way to display your pretty glass-wares it helps crate a space that felt more modern and relaxed.

## VINYL PVC Thermofoil

Thermofoil kitchen cabinet doors are a low maintenance and affordable type of cabinetry that provides the look of painted cabinets and laminated cabinets. They're made out of medium density fiber board (MDF) covered in a thin layer of heat-fused vinyl or laminate that creates a uniform and smooth surface with no color variations or streaks. With wide range of colors and textures available for choice, a thermofoil cover offers a durable and less-expensive alternative to wood cabinets. The thin layer of vinyl or laminate creates a seamless non-porous surface that doesn't hold dirt which makes these types of kitchen cabinet doors very easy to clean.

## SOLID WOOD

As one of nature's most indelible, beautiful and tough materials, a solid modern wood veneer makes for a stunning and timeless kitchen design. A kitchen made entirely from a modern real wood finish carries a hard to beat air of stylish quality and opulence. For maximum stability, strength and durability, our modern solid wood kitchens are sourced from the finest raw materials. Second to this, they undergo a sophisticated and carefully crafted manufacture process; this ensures these solid wood units, complete with their rich, warm and tactile surfaces, make for high quality and long-lasting kitchens.

## HPL high pressure laminated

With the same aesthetic effect of melamine laminated kitchens, yet the main manufacturing process is done by fusing multiple layers of impregnated paper under high pressure and temperature, the HPL kitchens is hard wearing, long-lasting and hygienic surfacing material.

Our wide variety of HPL decors, colors, wood and metal designs, qualities and finishes make up an ample choice to a suit each client's needs.
