Decor Application

THE WARM CHAPTER OF HOME STARTING FROM THE BEGINNING

The ideal home starts from the entrance. The practical and beautiful entry foyer cabinet, with white as the main color. The middle of the jump color with grill plate design, more highlight the overall flexibility and texture. Based on the principle of function first, the partition design does not interfere with each other, classic and practical, staggered and sufficient storage, showing the owner's taste and aesthetics.

Living room TV cabinet with cocoa custard as the main color, the middle of the introduction of peacock blue color into the space. It renders a simple modern home style of quality and elegant art. The color-opping grille back splash with profile aminate lights focuses the vision and enhances the style, making life more exquisite and beautiful. Embossed back plate with the addition of arc modeling board, so that the TV cabinet has a virtual and real, so that the overall space combination is more rich, with light outlining geometric lines, in light and shadow between the virtual and real highlights the product's sense of hierarchy.

The dining room cabinet is rationally sorted and partitioned functionally to meet the usage demand and superb storage capacity. The middle grille backboard and protruding chest of drawers are matched with round arc modeling board, with peacock blue as the jumping color, eliminating the awkwardness of the block, and articulating elegance and romance without boundaries. The use of glass doors on the left side is very visual tension, and the wine displayed in the cabinet will present the owner's taste, creating a full dining mood. The right side of the high cabinet design has a strong storage function, looks more three-dimensional and full. Creating a diversified visual experience and unique dining room space experience.

Kitchen L-type cabinet layout, presenting a simple dynamic design and clear division of functional areas, making the entire cooking session has become organized. Cocoa custard + peacock blue contrasting color scheme, with the corner of the smooth arc design, eliminating the corners of the corners of the possible safety hazards, so that cooking is more convenient, convenient, practical, beautiful as a starting point, redefine the modern kitchen brings a better life.

Inner arc door panel

Better space utilization and soft excess in small homes easier access to items in corners.

The bedroom breaks the conventional spatial layout with the integrated design of desk, bedding and closet, further integrating the office area with the bedroom space. Corner details are created with flexible arcs to create a comfortable and replace to live. The through-the-roof closet is simple and sharp, taking into account the value of the space and the storage function and the open lattice design adds a bit of style and sophistication. The bedside background is embellished with smooth curved design, which is very tense and personalized, and the embedded light strip highlights the delicate elegance and gives more vitality to the space.

Storage cabinet + washing machine + washbasin design, so that the balcony set laundry drying, washing storage and other functions in one, life is naturally convenient. The overall shape of the lightweight does not occupy an area, just a square inch, while both storage, storage, laundry, wash and other rich functions. Open cabinet and closed cabinet combination, not only practical function is powerful, more can pull full balcony value points, is also an indispensable beautiful scenery in home life.

Jewelry storage box

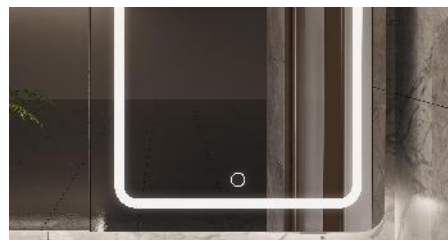

Install upside down, release space, and stick to the bottom of the cabinet for easier access.

Checkroom is a symmetrical double zigzag layout design, through the top of the masking door cabinet, combined with the jump color open cabinet and glass laminate, the combination of real and virtual design, enriching the space level. Glass door and cover the door cabinet in the middle of the open grid design, with jump color convex arc drawer cabinet, is the finishing touch to the whole space, not only does not appear to space monotonous rush, but also next to the glass door cabinet in the formation of the light band echo, so that the whole space are "alive' up. In the simple light and shadow, highlighting the checkroom's advanced taste..

Jewelry storage box

A high-end cloakroom, paired with a high-end jewelry storage box, provides double protection for your precious jewelry.

Smart Mirror

Adopting invisible light strip, emitting light all around, with a 360 dimensional beauty lighting effect and clearer illumination.

The overall layout of the bathroom cabinet is staggered, multiple storage combinations, writing space for everything. Round corner silver mirror hanging cabinet with smart mirror, display Storage take at will, taking into account the blue and practical, showing eye-catching fashion. Suspended drawer cabinet open cabinet combination, there are hidden and exposed, broad farewell to the complicated and messy, series of diversified storage scenes, countertops to the unique texture of the rock plate to create a bathroom space texture, creating a deep and fascinating level of space.
