The product uses Yuhuan as the design element, which is full of atmosphere, mellow and elegant; In ancient China, "jade ring" was a ritual vessel and a keepsake. It was strung up with ropes and made into pendants and hung on the clothing around the neck or waist, implying peace and auspiciousness or status symbol. It was also a love keepsake given by ancient lovers to each other.

Wine is the flowing moonlight.
Clink glasses, drink freely, and stay happy every moment.
The series is inspired by the cocktail party. They celebrate each other by raising glasses on the banquet table, and are happy and comfortable. The simple lamp body line makes the glass the theme of design, implying that the light has become a flowing wine, witnessing the moment of full enjoyment.

We use the texture of material technology and the form of modeling to create a smooth light and shadow experience, so that the sail has a special flavor, and it also contains a good wish for smooth sailing.

Inspired by the design of film, the fixed texture deduces the flow of light and shadow, and the precipitation of years of marble brings the modern rebirth of design. Because it is simple and more profound, the feeling of the traces of years gives the space a humanistic atmosphere.

Symphony is a solemn and infectious field. Light is also an infectious element. We use light and design to describe the grand and romantic symphony. We use light condensation to construct the core of design, and use transparent glass to describe the field. In the form of simplicity and modernity, this field of light can become a force influencing the tranquility of space.

The product design is to materialize the light and show the shape of the light through the wire. The lamp is divided into internal and external parts. The external part is a geometric glass lampshade. The internal wire symbolizes light. The light source illuminates the metal outline and the glass lampshade respectively, forming a double light feeling. The series of products include chandeliers, table lamps, floor lamps, simple and modern shapes suitable for various styles of space.

The "Infinity 8" chandelier is composed of eight quarter circles, showing the infinite symbol in volume. The 'Infinity 8' is suspended by three thin leather threads, inviting your gaze to be lost in endless contemplation.

 Colour: White 哑白
 Material: Alabaster+brass+leather 云石 + 铜 + 皮革

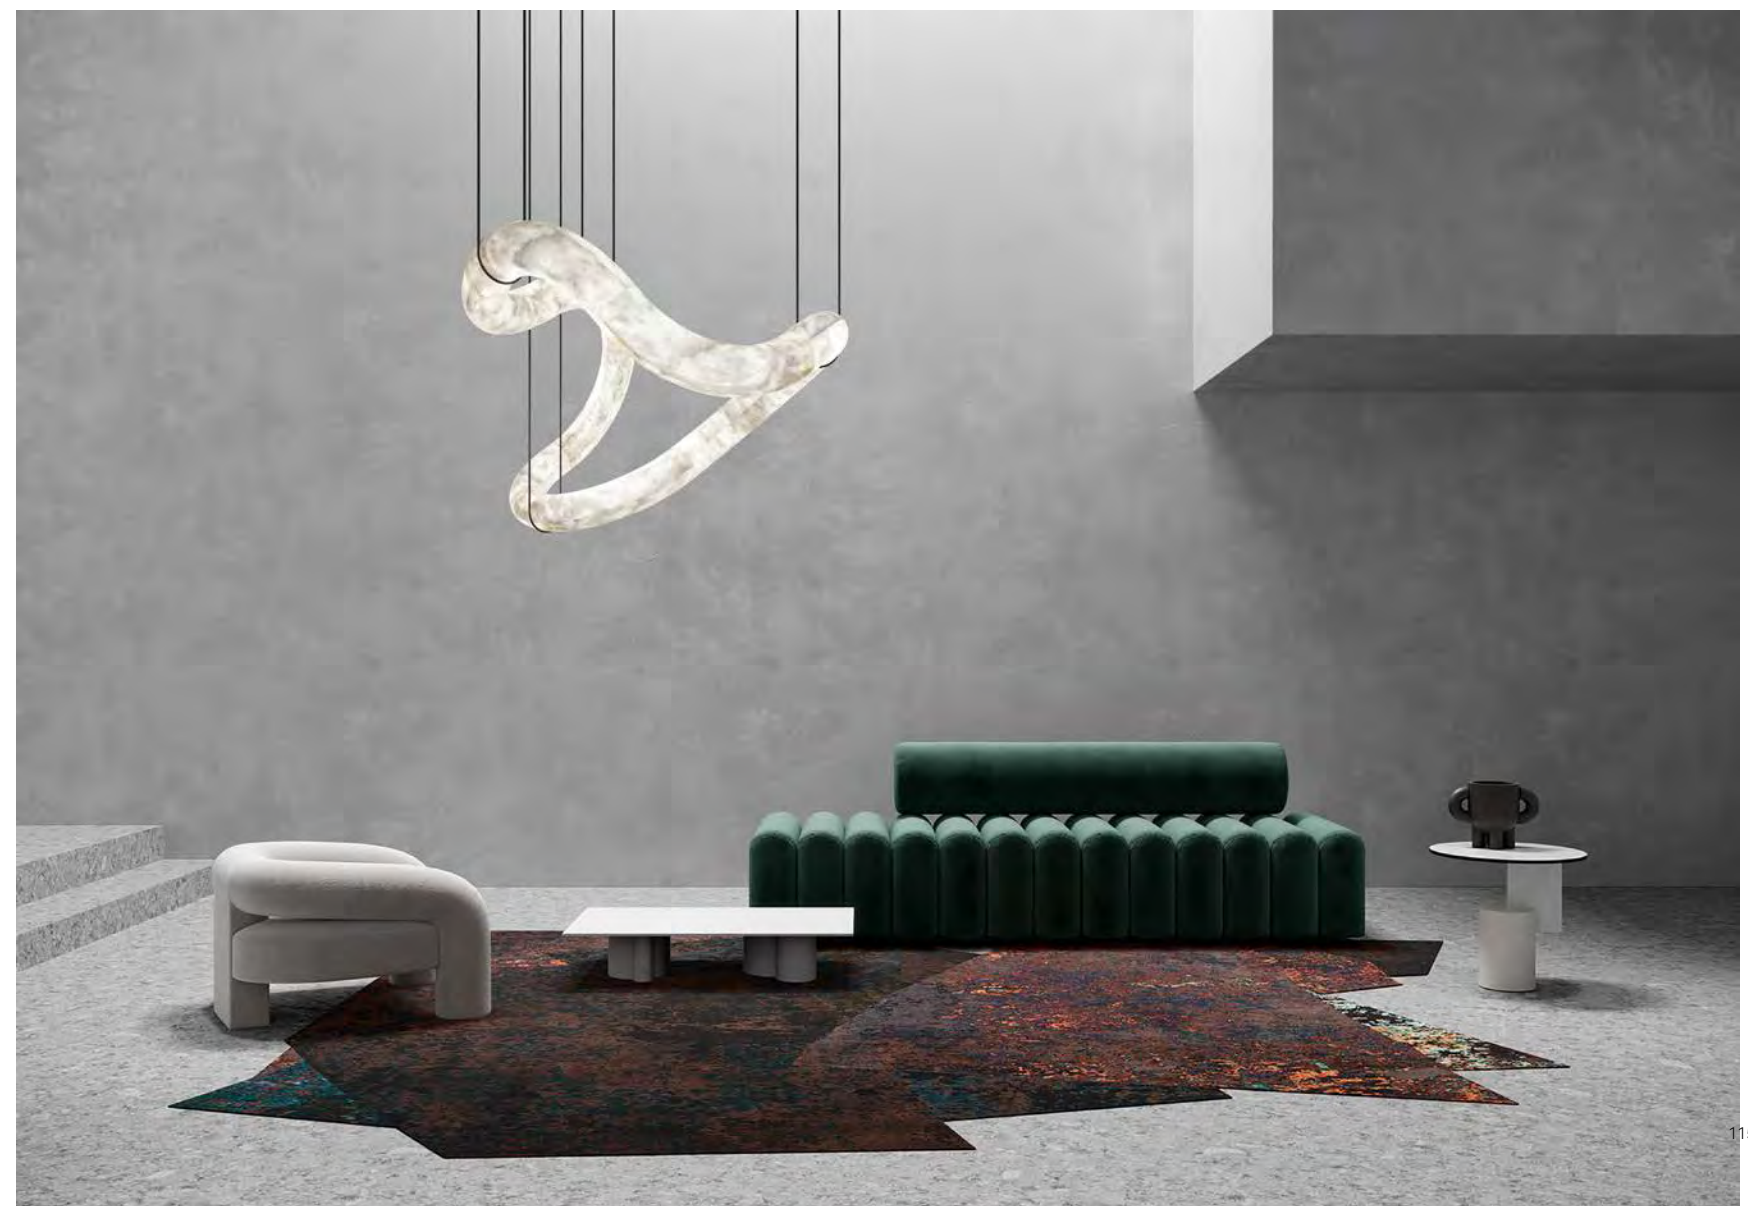

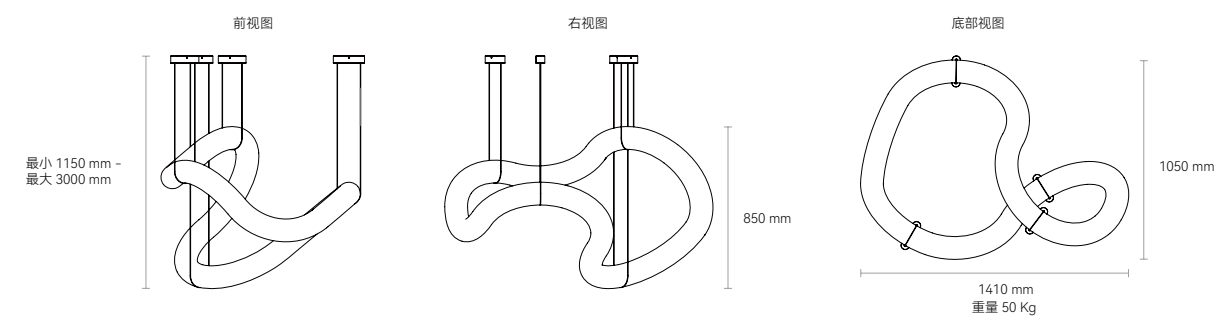

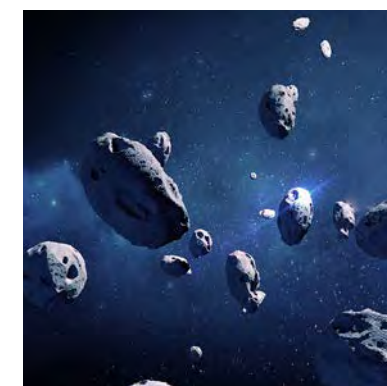

Inspired by the Möbius strip, the series seduces with its improvised and poetic form. It draws its strength from its protean appearance and its asymmetrical design. Depending on the angle from which one contemplates this luminaire, a new random configuration appears subject to all interpretations, a true optical illusion. On the eye, a multitude of sculptural works are created, all different from each other, ad infinitum. Without top or bottom, "it moves in space in a very fluid rhythm totally weightless."

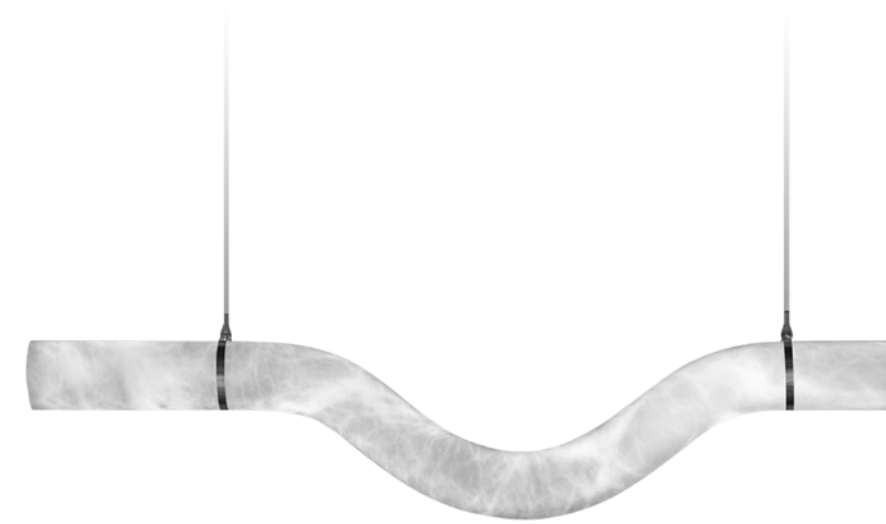

Size: L1410*W1050*H850mm
 Colour: White 哑白
 Material: Alabaster+brass+leather 云石+铜+皮革

The serie embodies a new poetic variation. These suspensions open another dialogue between space and light. Aerial, they come in three models with different shapes and constructions. Each one can be tilted and adjusted in height to adapt to the room. The suspension, held by simple leather-wrapped steel cables, seems to levitate. A ring in chrome-plated, shiny or satin-finish gold or bronze brass emphasizes its minimalist structure. The strength and simplicity of the geometry gives them the possibility of adding up, complementing each other, multiplying with harmony. The three modules with their tubular structure, unique or associated in compositions, recall the industrial architecture and can be integrated into any type of universe.

Inspired by the design of the Colosseum in Rome, the products are designed in an atmospheric and thick ring shape, and the bronze color is treated with mottled texture and special surface treatment. If it records the glorious history and splendid culture of Rome for 2800 years; Rome is a famous historical and cultural city in the world, the source and birthplace of the oldest civilization in Europe, as well as the birthplace of Baroque art and neoclassicism. It has become the activity center of famous thinkers, scientists, writers, artists and other cultural figures, and has created numerous masterpieces here. In the first century BC, the Roman poet Tibus first called Rome "the eternal city". In the ancient Roman and medieval times, Rome was also known as "Caput Mundi" (the capital of the world), making this city the center of art and culture in the world.

THE CURIOSITY
OF LIGHT LEADS US TO
BE CURIOUS ABOUT
THE WORLD.

We think about the company of light to people. It should have professional functionality and convenience. We use simple form, professional optical technology and adjustable interaction methods to show this kind of caring company. It is like a curious little partner, who is curious and dedicated to accompany us.

We think about the companionship of light to people,
It should have professional functionality and convenience,
We use simple form, professional optical technology and adjustable
interaction mode to present the company of this kind of care.

Be upright, modest, attentive and listen.
It is the character of the waiter and the virtue
of the work.
Minimal design, both functional and beautiful.

The dream bears fruit,
Feel free to come, roll at your fingertips,
fall at the pen and ink.
Every color is clearly a dream,
Thoughts that are as light as a cicada's
wings and surging like dewdrops.
