IP65 water-proof string lights commonly used for outdoor, mainly for street, public spaces, Parks, building decoration

IP65 water-proof products are made by high quality LEDs and special process for curtain lights, icicle lights, acrylic motif lights, tree lights, and so on.

The Acquirement of IP65

IP65 acquired

we conducted an IP test at a third-party public institution in Japan in April, 2015.Test product: 2 core/3core string light

As a result of the examination, we got the approval as a product that is suitable for IP65 and officially acquired Ip65.

We will keep focusing on trial in future and strive for product development for customers'safety.

What is IP and IP test?

IP (International Protection) is degree of protection against foreign matter, dust and water for electrical machinery and equipment. The test evaluation is carried out by the test method standardized by the protection grade. The IP code is a system that represents the protection class specified in JIS C 0920 (IEC 60529), and the two numbers following the IP represent the protection grade.
The first characteristic number indicates the degree of protection against foreign solid matter, the second characteristic number represents the degree of protection against ingress of water.

The IP code is applied to small machinery parts such as switches and connectors and electric machinery and equipment.

IP code notation combination (first characteristic number/ second characteristic number)
The IP code is a combination of numbers, the first characteristic number represents the protection grade against foreign solid matter,

The second characteristic number represents the degree of protection against invasion of water.

I P 6 5

IP code character

The first characteristic number

The second characteristic number (0~8, X)

※Since IP is only an estimate of acquisition, it may not be fully demonstrated depending on the environment and condition to be installed and the construction method, so please understand it beforehand.

IP test content (IP65)

IP 6 X (against outside solids)

Definition: Dust for dust test (talc powder / diameter 75 μm) is protected from entering.

IPX 5 (Water resistant)

Definition: Protected against jet water from all directions (12.5 l / min).

Test report by a third-party organization above mark is

For the product that acquired IP65, the marked on the corresponding page.

IP TEST

Christmas commercial decoration

Our company produce acrylic motif lights according to the 2D and 3D objects, such as shop logo, landmarks building, animals, people, plants, and so on.

Tailor-made is also welcome according to the demand of customers'drawing, photo, manuscripts, any detail specification wlll be much appreciated, such as length, wide, height, LED numbers, colors.
For example, the above drawing is reference from customers'photo
Discussed with customers first

We assemble the perfect motif lights from separate parts

Done, we will do the assembling test before packing and shipping

11

Christmas Motif Lights

Not only the finished products, we also can help customers to design, if you need.

GPS-95-1
LED number: 450LEDs
Size: Φ100cm
Weight: 2.3kg
Voltage: 24VDC / 100-130VAC
220-240VAC

Water-proof Outdoor use

Snowflakes 003
GPS-96
GPS-96-1
LED number: 756LEDs
Size: Φ100cm
Weight: 3.8kg
Voltage: 24VDC / 100-130VAC
220-240VAC

Water-proof Outdoor use

Snowflakes 013
GPS-97
LED number: 360LEDs
Size: φ100cm
Weight: 2.5kg
Voltage: 24VDC / 100-130VAC / 220-240VAC

**Snowflakes 015**
GPS-98
LED number: 504LEDs
Size: φ100cm
Weight: 3kg
Voltage: 24VDC / 100-130VAC / 220-240VAC

Snowflakes 002
GPS-102 / GPS-102-1
LED number: 216LEDs
Size: φ63cm
Weight: 1.2kg
Voltage: 24VDC / 100-130VAC / 220-240VAC

Snowflakes 005
GPS-99
LED number: 288LEDs
Size: φ67cm
Weight: 1.5kg
Voltage: 24VDC / 100-130VAC / 220-240VAC

Snowflakes 004
GPS-100
LED number: 180LEDs
Size: φ62cm
Weight: 1.2kg
Voltage: 24VDC / 100-130VAC / 220-240VAC

Snowflakes 016
GPS-101
LED number: 144LEDs
Size: φ63cm
Weight: 1kg
Voltage: 24VDC / 100-130VAC / 220-240VAC

Branches
GPS-104
LED number: 396LEDs
Size: W140 x H60cm
Weight: 2.6kg
Voltage: 24VDC / 100-130VAC
220-240VAC

NEW
Corner light
GPS-103
LED number: 216LEDs
Size: W50 x H87cm
Weight: 1.9kg
Voltage:24VDC / 100-130VAC / 220-240VAC

Widely used for wall corner, window corner or street decoration etc. via different combination.
