Science is the key to open the door of human wisdom. All of the great scientists are the masters of these keys. Experiencing these top end toys and the power of technology is to let the children own one of these keys. Allow their imaginations to fly; light up their eyes; and let them stand on the shoulders of the giants to look into the world and sail their life voyage.

Playing can satisfy children's curiosity and emulation, and is beneficial to the development of children's creative thinking. During the intense activities, children's heart and lung function can be improved. Children will learn to communicate, share, and help each other, which is beneficial to their mentality as well as the development of their ideology and morality.

The mysterious and adventurous sea has a natural appeal for children. And rooted in childhood fantasies, fantasizing the rudder of a pirate ship in search of the mysterious sea. Adopting the popular "pirate ship" elements as the design theme, simulate the space of the pirate ship. There are observation decks and sails. The shapes are vivid and realistic, as if they are really in the ocean. Create a unique play space. Children can adventure on pirate ships and explore new worlds on their own boats. The design of the overall wooden structure is ingenious and very naturally integrated into the surrounding environment. Added fun and richness to the play environment.
