& Procurement Partner*

# PRODUCTS PREVIEW

## 2025 Products Line

We are dedicated to supporting home appliance manufacturers & distributors with high-quality products, components, raw materials, and assembly solutions. With decades of experience and an extensive global network, we deliver reliable, tailored services to meet your needs.

### Supply of Components and Raw Materials

We specialize in providing premium components and raw materials for the production and assembly of:

- Gas cookers
- Refrigerators
- Washing machines
- Bottle coolers
- Freezers

Our materials and components are sourced to ensure durability, efficiency, and compliance with global quality standards, helping our clients achieve excellence in their products.

### Finished and Semi-Finished Products (CKD and CBU).

We cater to distributors with both Complete Knock-Down (CKD) and Completely Built-Up (CBU) solutions for:

- Gas cookers
- Refrigerators
- Washing machines

Whether you need fully assembled units or detailed components for on-site assembly, we provide flexible options to fit your manufacturing requirements.

### Supply of Assembly Lines

To streamline production processes, we offer customized assembly line solutions, including:

- Complete assembly lines tailored for gas cookers, refrigerators, and washing machines.
- Ongoing technical assistance to ensure smooth operations and minimal downtime.

### Why Choose Punto Med?

- Extensive Experience: Over five decades in the home appliances industry.
- Custom Solutions: Tailored services to meet the unique needs of each manufacturer.
- Global Reach: Trusted by partners worldwide with supply and assembly expertise.

### Oven Gas Cookers

Gas Cookers Specifically Tailored to Your Market.

We provide a diverse range of gas cooker models, designed to be highly customizable to meet your market's unique needs and requirements. Whether it's size, features, or functionality, our cookers are tailored for optimal performance and customer satisfaction.

- **Wide Range of Options:**

Different sizes (50x50, 60x50, 60x60, 90x60)

Available in various colors and finishes to match your market preferences

All options available (safety valves, turnspit motor, electronic ignition, glass cover, etc...)

- **Flexible Supply Formats:**

Choose between CKD (Completely Knocked Down) or CBU (Completely Built Up) to suit your production and logistical needs.

- **Tailored Solutions for Your Market:**

Designed with adaptability and customer satisfaction in mind.

**Table Gas Cookers**

Sleek Design.  
Available in various finishes and colors.  
Offered with Backguard or Metal Cover.

Premium Materials:  
Brass Caps for enhanced heat efficiency.  
Die-Cast Aluminum Base for long-lasting performance and stability.  
Ideal for modern kitchens: Combines functionality and elegance.

## Portable Propane Gas Grill

Full Stainless Steel 3-Burners Barbecue

Powerful Performance:

- 8000 BTU x 3 Burners for efficient grilling.
- Total Output: 24,000 BTU.

Durable Construction:

- Body in full Stainless Steel
- Gas Valve: Aluminum Manual Valve for precise control.
- Grease Tray: Stainless Steel (SS#430, 0.6 mm thickness) for easy cleaning.

Enhanced Functionality:

- Built-in Thermometer for precise temperature monitoring.
- Portable and Convenient.
- Compact design for outdoor cooking with style and efficiency.

## Refrigerators

A Full Range refrigerators line to meet all your market needs and requirements.

### Versatile Models:

- From compact mini-bars to large side-by-side 2-doors.
- Defrost and No-Frost technologies available.

### Enhanced Features:

- With or without water dispenser to suit preferences.
- Stylish Customization.
- Available in a variety of colors and finishes.
- Handle Options: Choose between recessed handles or outside handles for added flexibility.

## **Bottle Coolers**

### Key Features:

- Sliding Doors for easy access.
- Defrost Function for hassle-free maintenance.

### Premium Construction:

- Stainless Steel Exterior for durability and sleek design.

### Temperature Control:

- Digital Temperature Controls for precision.
- Adjustable Range:  $-10^{\circ}\text{C}$  to  $+10^{\circ}\text{C}$  to suit various cooling needs.

## **Chest-Type Freezers**

Efficient Cooling with a Modern Design.

Key Features to be customized:

- Hinged Doors for easy and secure access.
- Defrost Function for a hassle-free maintenance.
- Premium Build
- Advanced Temperature Control:
- Digital Controls for precise and user-friendly operation.

## Washing Machines

Different types:

- Automatic: Fully automated washing, energy efficient
- Twin Tub: Separate tubs for wash and spin/drain, economical

Wide range of models and capacities:

- Front Load: Easy access, gentle on clothes, high spin speeds
- Top Load: Convenient, budget-friendly, suitable for large loads
