Product profile

All in One Interactive Flat Panel with Moving Standing

High definition LED screen, fast response speed, Intelligent operation & writing & touch control...Multifunction in one equipment makes effective and convenient in business, education and meeting function.

Luxury Surface Finishing Aluminum Frame

4mm Tempered Glass

OPS Computer

Interface

Interface   Button

Main features

Dual Core Processor

Windows and Android dual system built-in design
Both systems can achieve whiteboard writing and multimedia playing

Fast response speed

Fluent writing and demonstration
More convenient courseware management

Intelligent Operation

Freely write, annotate and screenshot
Automatically recognize input channel
Intelligent eye protection
Light sensor with automatic brightness control
Energy Save & Screen Intelligent awaken

Enriching & Expanding

Complete interfaces, strong compatibility
Building educational resource sharing platform

All in One Interactive Flat Panel

Scene application

Meeting Room Presentation

Compared with traditional whiteboards and projectors, interactive flat panel not only has exquisite display effects, smart interactivity and remote meeting function, but also supports wireless connection and screen sharing which removed the complex wiring. It has received highly preference and wide application in the conference machine market.

All in One Interactive Flat Panel

Teaching Blackboard

High definition LED screen, fast response speed, intelligent operation & writing & touch control...Multifunction in one equipment makes effective and convenient in business, education and meeting function.

Fixing frame

Aluminum alloy frame

OPS module

Fixing frame

Main features

4K high resolution

3840*2160 resolution make the image brighter and more vivid, and the picture quality is more detailed and realistic.

Multi touch

You can write, zoom in, zoom out, erase, drag and other shortcuts in the writing function interface, support multi-touch, infrared touch, precise and fast

Retain traditional teaching

Touch interaction, multimedia teaching and chalk writing, seamlessly interface traditional teaching blackboards with perceptible interactive blackboards

Wireless screen

Built-in WiFi, wireless Internet access and remote functions, mobile terminal connected to WiFi for on-screen operation

Nano Smart Teaching Blackboard

Scene application

School Teaching

Nano smart teaching blackboard has received great popularity based on its premium display effects, smart interactivity, annotation function, multimedia files playing, a large quantity of extensive applications, abundant Internet source and remote teaching functions. It is becoming a strong assistant of teachers.
