INTELLIGENT SOLAR BENCH

PRODUCT SPECIFICATION

- Material: 201 stainless steel + aluminum
- Size: Length: 170cm, width: 45cm, height: 45cm
- Solar panel: 18V 90W
- Battery: 12V 36AH
- Controller type: MPPT charging
- Weight: 45KG
- TYPE-C charging: 2pcs
- USB charging: 2pcs
- USB charging output :5V 2.1A
- Wireless charging: 2pcs
- Bluetooth speaker :12V 8Ω15W*2pcs
- Wi-Fi: 4G/ International router
- Background light: Single color or RGB

Highlighting Lighting/Smart Bluetooth Speaker (customizable)

LED high lumens lamp beads, long life, high brightness,The glow is uniform. Customizable Bluetooth stereo, mobile phone Bluetooth smart connected, outdoor music playback,Outdoor performance singing.

USB charging/wireless fast charge

USB charging can be given to laptop/mobile phone /portable charger and other smart electronic devices. Wireless charging 30W can charge a smartphone. Wireless WIFI connectionConnect, the network speed is super fast, no traffic consumption, convenient office.

Solar smart Bench

This Bench charging during the day, and lighting auto at night, with energy storage and charging, and can accommodate more than five people at a time to relax. You can connect your phone to USB for charging Or wireless charging. The bench is equipped with a solar device that converts the sun's energy into electricity. At night, there is a light under the bench, Realized the function of street lamp. Solar bench is a kind of green and energy-saving outdoor public facilities.

INTELLIGENT SOLAR BENCH

PRODUCT SPECIFICATION

- Material: 201 stainless steel + aluminum
- Size: Length: 170cm, width: 45cm, height: 45cm
- Solar panel: 18V 90W
- Battery: 12V 36AH
- Controller type: MPPT charging
- Weight: 40KG
- TYPE-C charging: 2pcs
- USB charging: 2pcs
- USB charging output :5V 2.1A
- Wireless charging: 2pcs
- Bluetooth speaker : 12V 8Ω15W*2pcs
- Wi-Fi: 4G/ International router
- Background light: Single color or RGB

Highlighting Lighting/Smart Bluetooth Speaker (customizable)

RR-3206

INTELLIGENT PHOTOVOLTAIC TABLE

PRODUCT SPECIFICATION

Material: Stainless steel

Size: Size: Total height: 280cm, Table height: 110cm, diameter: 72cm

Solar panel: 18V 90W

Battery: 12V 36AH

Controller type: MPPT charging

Weight: 45KG

TYPE-C charging: 2pcs

USB charging: 2pcs

USB charging output : 5V 2.1A

Wireless charging: 2pcs

Bluetooth speaker : 12V 8Ω15W*2pcs

Wi-Fi: 4G/ International router

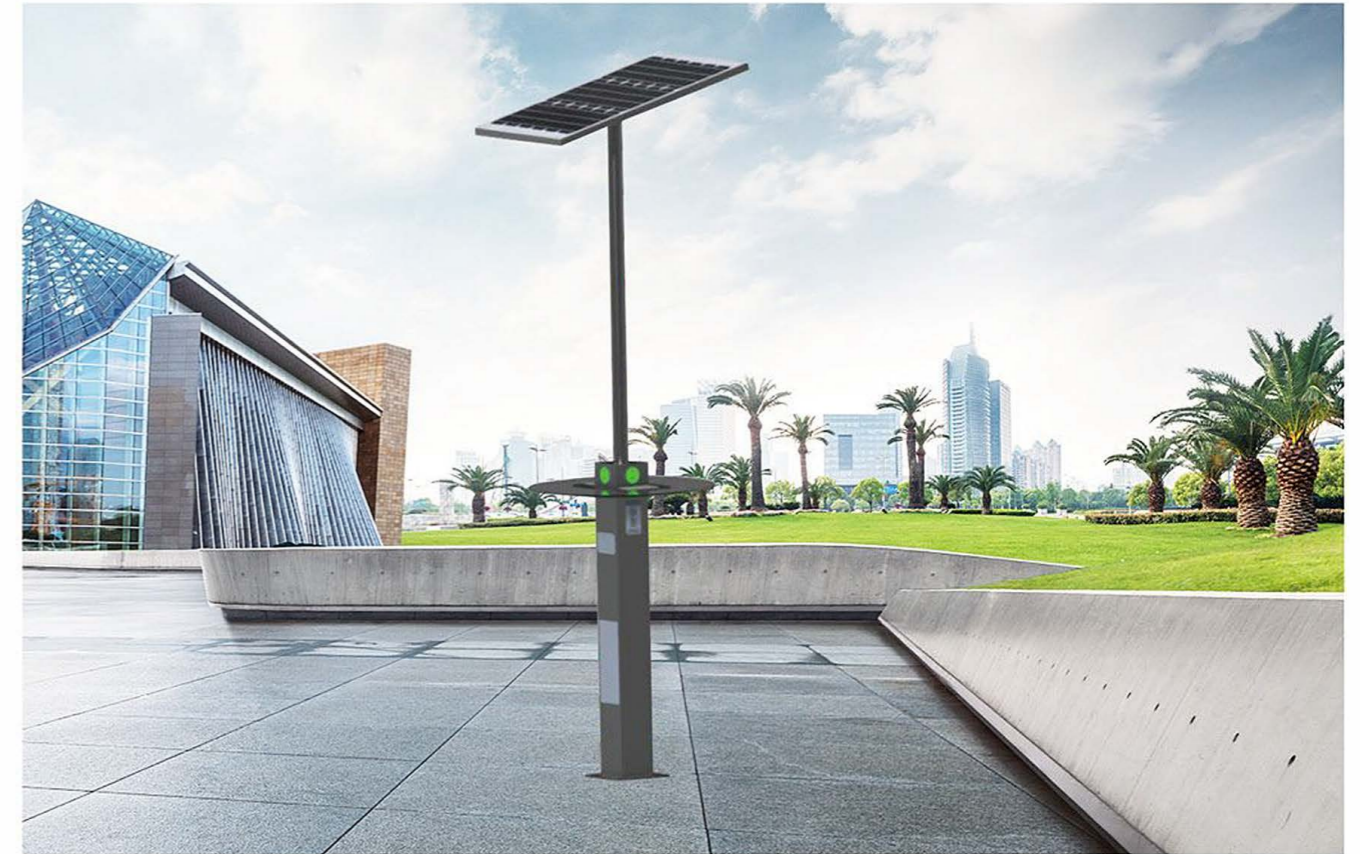

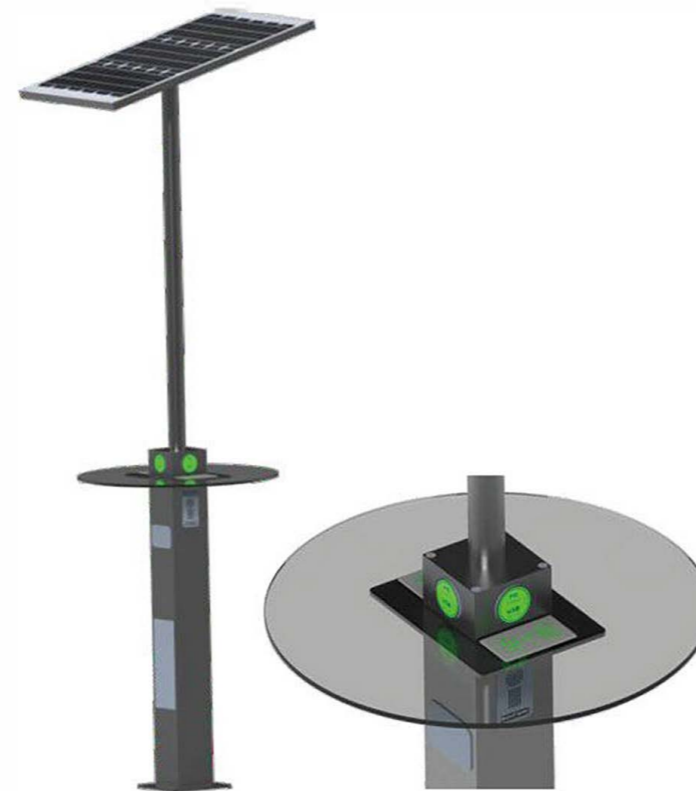

Background light: Single color or RGB

Highlighting Lighting/Smart Bluetooth Speaker (customizable)

LED high lumens lamp beads, long life, high brightness. The glow is uniform. Customizable Bluetooth stereo, mobile phone Bluetooth smart connected, outdoor music playback, Outdoor performance singing.

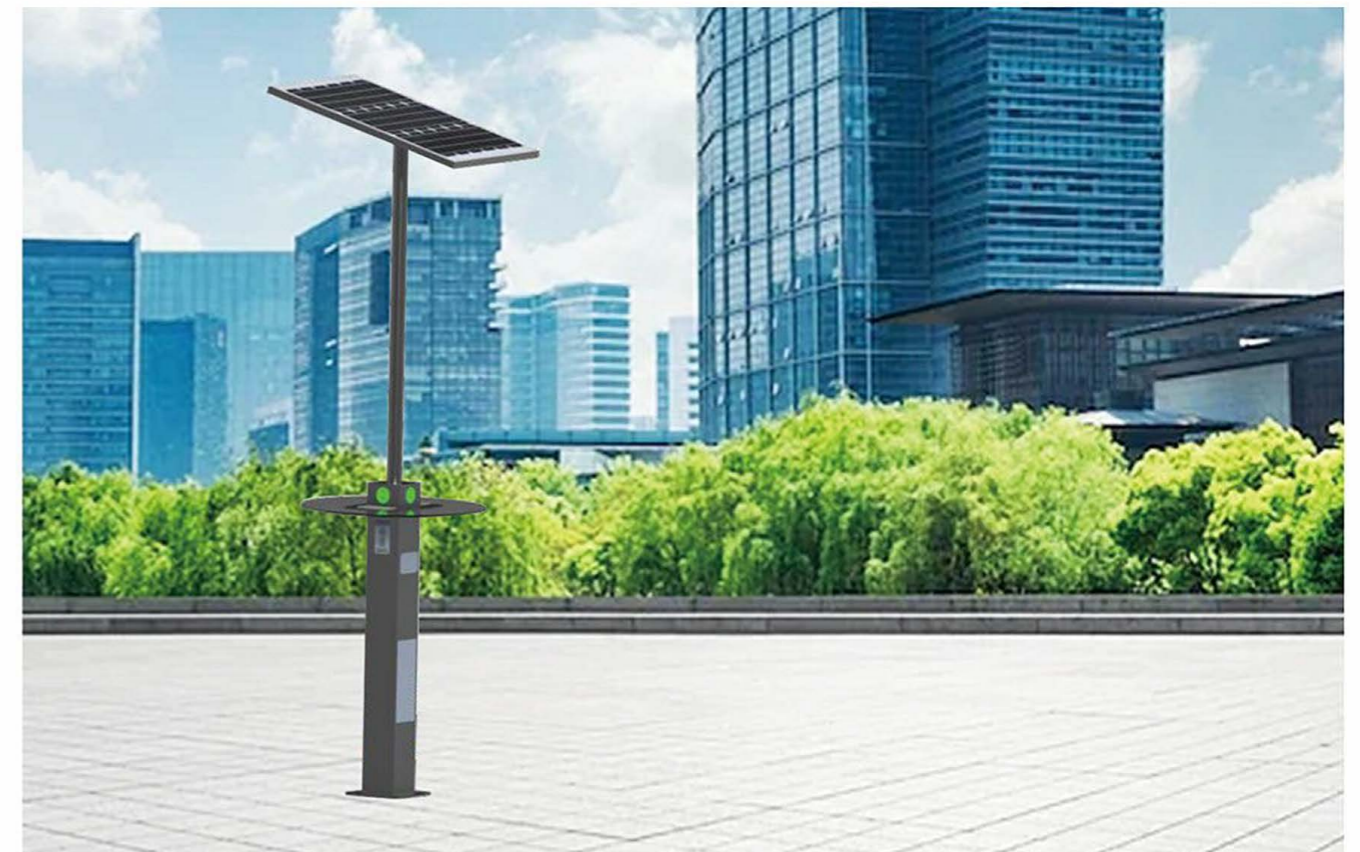

USB charging/wireless fast charge

USB charging can be given to laptop/mobile phone /portable charger and other smart electronic devices. Wireless charging 30W can charge a smartphone. Wireless WIFI connection Connect, the network speed is super fast, no traffic consumption, convenient office.

Solar smart photovoltaic round table

This Round table charging during the day, and lighting auto at night, with energy storage and charging, and can accommodate more than five people at a time to relax. You can connect your phone to USB for charging Or wireless charging. The Round table is equipped with a solar device that converts the sun's energy into electricity. At night, there is a light under the Round table, Realized the function of street lamp. Solar Round table is a kind of green and energy-saving outdoor public facilities.

18V-90W SOLAR SMART ROUND TABLE

PRODUCT SPECIFICATION

- Material: Stainless steel
- Size: Total height: 280cm, Table height: 110cm, diameter: 72cm
- Seat size: Length: 75cm, width: 35cm, height: 40cm
- Solar panel: 18V 90W
- Battery: 12V 36AH
- Controller type: MPPT charging
- Weight: 100KG
- TYPE-C charging: 2pcs
- USB charging: 2pcs
- USB charging output : 5V 2.1A
- Wireless charging: 2pcs
- Bluetooth speaker : 12V 8Ω 15W*2pcs
- Wi-Fi: 4G/ International router
- Background light: Single color or RGB

Highlighting Lighting/Smart Bluetooth Speaker (customizable)

LED high lumens lamp beads, long life, high brightness, The glow is uniform. Customizable Bluetooth stereo, mobile phone Bluetooth smart connected, outdoor music playback, Outdoor performance singing.

USB charging/wireless fast charge

USB charging can be given to laptop/mobile phone /portable charger and other smart electronic devices. Wireless charging 30W can charge a smartphone. Wireless WIFI connection Connect, the network speed is super fast, no traffic consumption, convenient office.

INTELLIGENT PHOTOVOLTAIC CHARGING PILE

PRODUCT SPECIFICATION

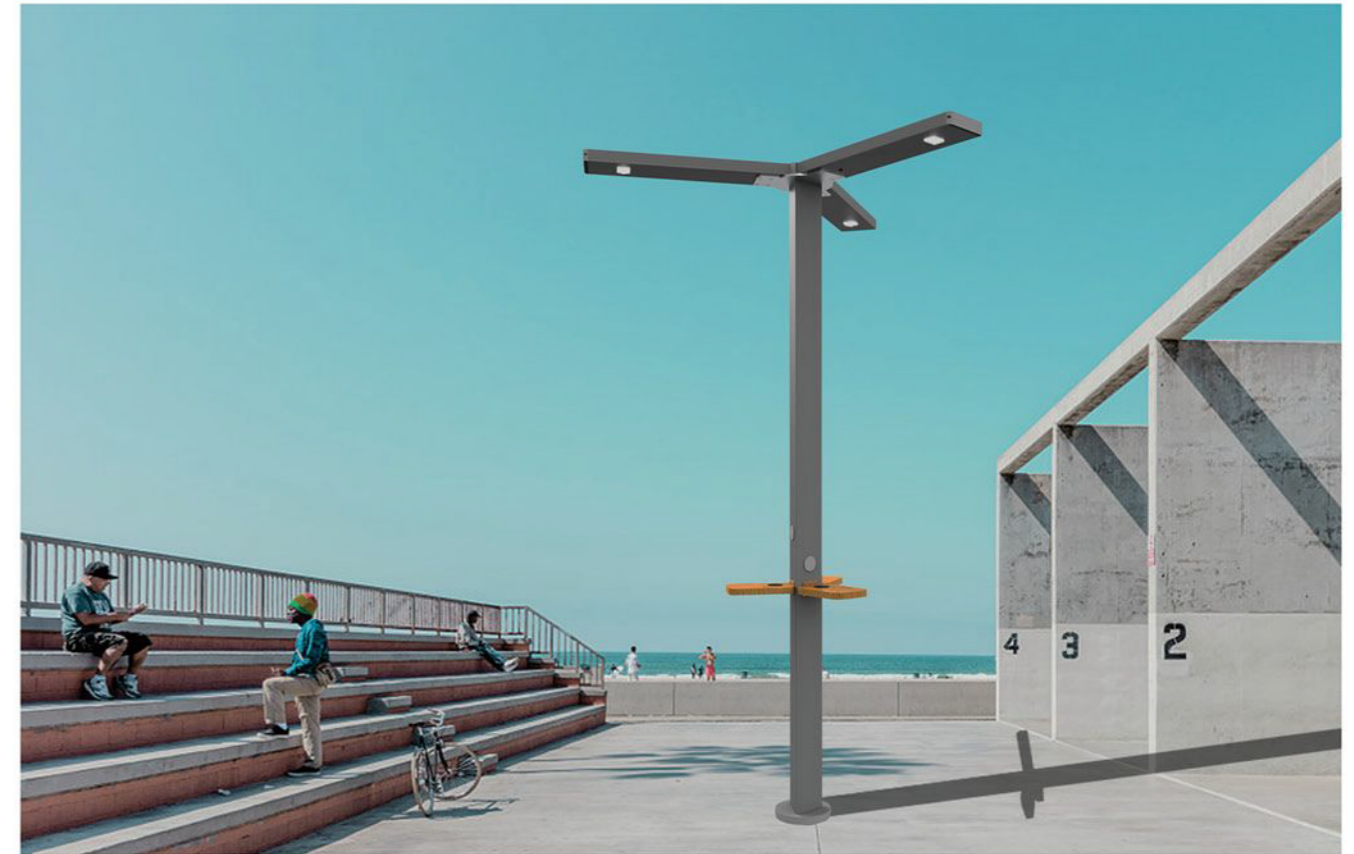

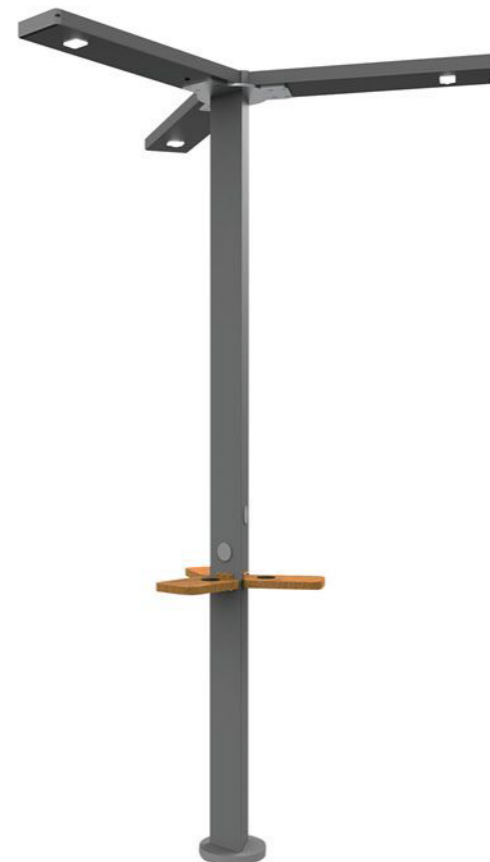

- Material: 201 stainless steel
- Size: Total height: 300cm, Table height: 110cm
- Solar panel: 18V 90W
- Battery: 12V 55AH
- Controller type: MPPT charging
- Weight: 65KG
- TYPE-C charging: 3pcs
- USB charging: 3pcs
- USB charging output :5V 2.1A
- Wireless charging: 3pcs
- Bluetooth speaker :12V 8Ω15W*2pcs
- Wi-Fi: 4G/ International router
- Background light: Single color or RGB

Highlighting Lighting/Smart Bluetooth Speaker (customizable)

LED high lumens lamp beads, long life, high brightness, The glow is uniform. Customizable Bluetooth stereo, mobile phone Bluetooth smart connected, outdoor music playback, Outdoor performance singing.

USB charging/wireless fast charge

USB charging can be given to laptop/mobile phone /portable charger and other smart electronic devices. Wireless charging 30W can charge a smartphone. Wireless WIFI connection Connect, the network speed is super fast, no traffic consumption, convenient office.

Intelligent photovoltaic charging pile

This Charging pile charging during the day, and lighting auto at night, with energy storage and charging, and can accommodate more than five people at a time to relax. You can connect your phone to USB for charging Or wireless charging. The Charging pile is equipped with a solar device that converts the sun's energy into electricity. At night, there is a light under the Charging pile, Realized the function of street lamp. Solar Charging pile is a kind of green and energy-saving outdoor public facilities.

RR-3203

INTELLIGENT ROUNDTABLE

PRODUCT SPECIFICATION

- Material: 201 stainless steel + aluminum
- Table size: 76cm, table circle: 76cm
- Solar panel: 18V 50W
- Battery: 12V 36AH
- Controller type: MPPT charging
- Weight: 30KG
- TYPE-C charging: 2pcs
- USB charging: 2pcs
- USB charging output :5V 2.1A
- Wireless charging: 2pcs
- Bluetooth speaker :12V 8Ω15W*2pcs
- Background light: Single color or RGB

Highlighting Lighting/Smart Bluetooth Speaker (customizable)

LED high lumens lamp beads, long life, high brightness. The glow is uniform. Customizable Bluetooth stereo, mobile phone Bluetooth smart connected, outdoor music playback, Outdoor performance singing.

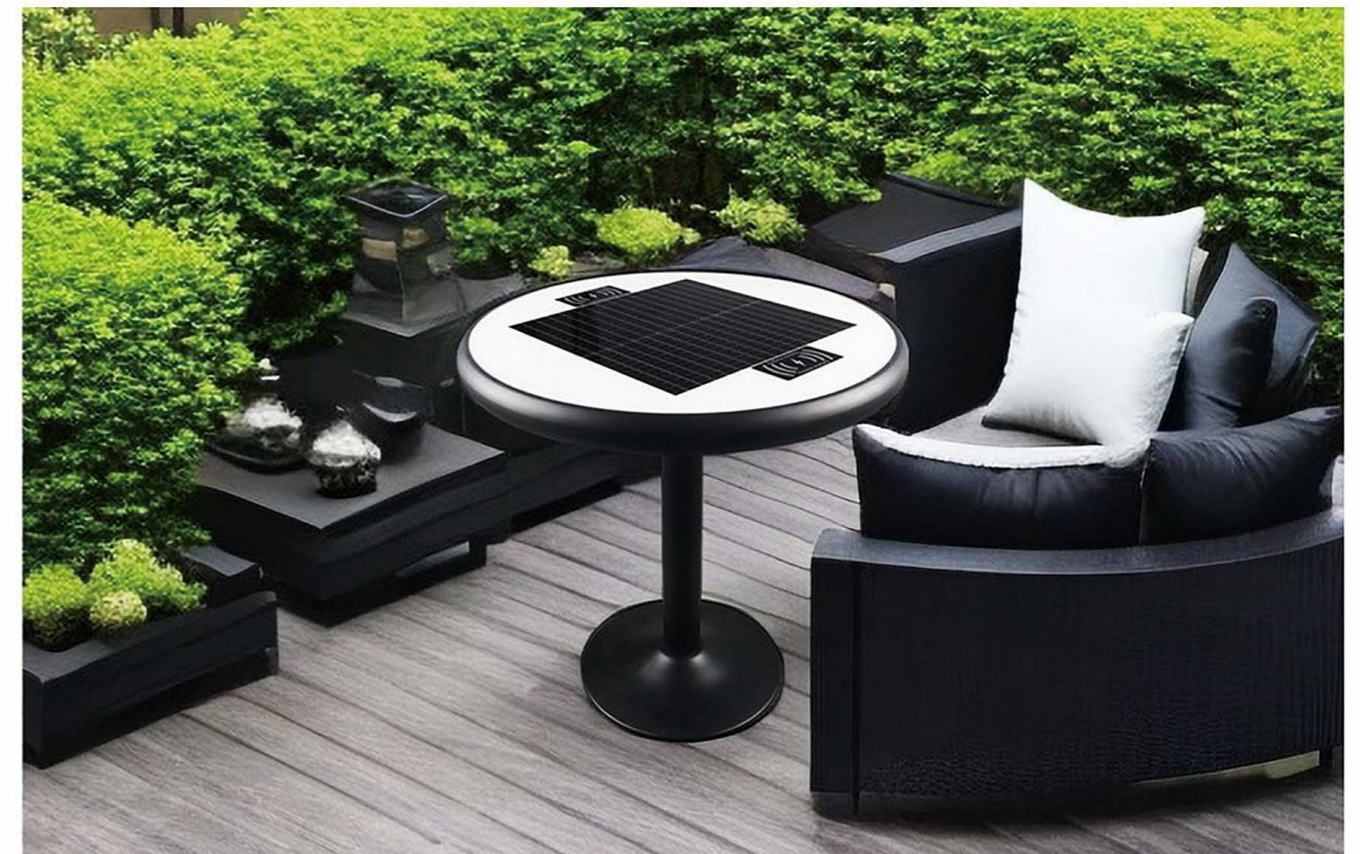

USB charging/wireless fast charge

USB charging can be given to laptop/mobile phone /portable charger and other smart electronic devices. Wireless charging 30W can charge a smartphone. Wireless WIFI connection, the network speed is super fast, no traffic consumption, convenient office.

Solar smart around table

This Round table charging during the day, and lighting auto at night, with energy storage and charging, and can accommodate more than five people at a time to relax. You can connect your phone to USB for charging Or wireless charging. The Round table is equipped with a solar device that converts the sun's energy into electricity. At night, there is a light under the Round table, Realized the function of street lamp. Solar Round table is a kind of green and energy-saving outdoor public facilities.
