COLLECTION 2025

Jacquard

The French weaving workshop and creative house

The company was founded in the **South of France** in **1992**, focusing on fabric trading. Today, the Group boasts **50 wide-width looms**, producing **2 million meters of fabric annually**, with over **3,000 refs** including jacquards, prints, fire-resistant fabrics, imitation leather, and outdoor materials.

This facility enables the production of jacquard fabrics in **France**, maintaining a **well-guarded in-house expertise**.

Our French design studio comprises textile designers who blend **creativity** with **technical skill**. They craft patterns, textures, weave designs, shiny threads, mixed linens, and embroidered effects, creating **unique atmospheres** that reflect **current trends** and **individual desires**.

Both **traditional** and **contemporary**, our collections are celebrated for **the quality of our jacquards** and the **originality** of our designs.

OEKO-TEX STANDARD 100 certified

Our fabrics are OEKO-TEX STANDARD 100 certified. Oeko-Tex is a quality label with various standards certifying the health and ecological safety of textiles and leathers, ensuring they are free of toxic substances for both the body and the environment.

French Jacquard : Where Art Meets Fabric

We take immense pride in our French heritage and expertise in the art of Jacquard weaving. Originating in France in the early 19th century, the Jacquard method revolutionized textile production and remains a cornerstone of sophisticated fabric design to this day.

WHAT IS JACQUARD FABRIC ?

Jacquard fabric is known for its intricate, **detailed patterns** woven directly into the material, not printed or embroidered. This technique creates **complex designs** like florals, geometrics, and damasks, which are both **visually stunning** and **durable**. Named after inventor **Joseph Marie Jacquard**, this fabric is made using a **special loom** he developed.

THE JACQUARD METHOD

Jacquard weaving uses a **special loom** with **punched cards** or a **computerized system** to control warp and weft threads individually. This allows for **highly detailed patterns** with **incredible precision** and **great versatility**, enabling the creation of bespoke designs tailored to **specific needs**.

How We Do It

DESIGN CREATION

Our process starts with our talented textile designers who meticulously craft patterns. Inspired by classic motifs or contemporary trends, each design reflects our commitment to quality and artistry.

LOOM SETUP

Once finalized, the design is converted for our advanced Jacquard looms, dictating thread movement and the fabric's final appearance.

WEAVING PROCESS

Our state-of-the-art looms, combined with the skill of our weavers, bring the designs to life. The careful interplay of warp and weft threads creates the intricate patterns that define Jacquard fabric.

QUALITY CONTROL

Each fabric piece undergoes rigorous quality control to ensure it meets our high standards for consistency, durability, and design accuracy.

Our Commitment

Our commitment to excellence combines **traditional techniques** with **modern technology** to produce beautiful, **sustainable fabrics**. We **preserve the craft** of **Jacquard weaving**, showcasing **French textile artistry** and **innovation**.

How It Works : The Steps

We offer a seamless and easy customization process to provide you with unique pieces tailored to your taste. Make your own range with customized French jaguar fabric !

1

Choose Your Furniture

To start, choose a piece of furniture from our selection.

2

Choose Your Fabric

Choose a fabric from our collection of furnishing and clothing fabrics.

3

We Take Care Of The Rest

Once you've chosen your fabrics and furniture, our talented team assembles everything to create a 100% unique piece !

Did You Know ?

Design can be personalized

(Min 500M of fabrics for exclusive fabrics)
