PVC Traffic Cone

MULTI FUNCTIONS - The safety cones can be used in personal or public areas, like garden, parking lots, road, square. Create caution areas in your driveway or marks off safe places for kids play in the driveway or playground.

PREMIUM PVC MATERIAL - The traffic cones are made of environmentally friendly PVC material. The safety cones are flexible, weighted and unbreakable, also can be continuously overlapped and will not take up too much space.

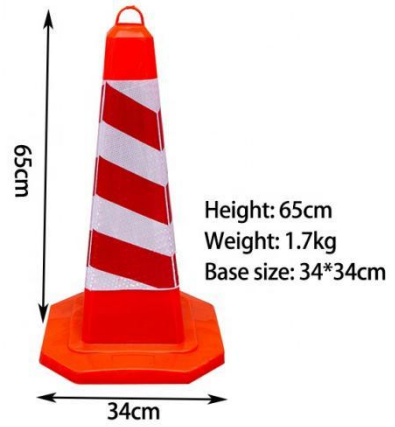

REFLECTIVE COLLARS - With reflective strips, the cones are highly visible during day or night. The 360 degrees visibility is sign alternative even in fog, rain, snow or other bad conditions.

DURABLE AND STABLE - Each traffic cone is heavy-duty, it's a great barrier which can stand high temperature, sun burning, cold icing or heavy crash.

As we all know, there are differences among traffic cones, such as height, reflective film and colors. So contact us for personal customization without hesitation. We could customize cone according to your requirements.

Traffic Warning Light

It has good light transmittance, and the hemispherical design can better reflect the light source. The battery can be installed by rotating and disassembling, only two AAA batteries are needed.

Model 型号	Height 高度	Size 尺寸	Material 材质	Package 包装	Weight 重量
	90mm	50*50*90mm	ABS+LED	Carton	30g

Warning Traffic Baton Led

WIDE USE: With ultra bright light, our hand-held traffic conductor LED light stick can be a indicator when parking or any other traffic command, also can use for traffic controls, emergency alerts, parking guides, construction crews etc.

GOOD VISIBLE: The long lighted portion provides great visibility. And the traffic wand red can be used in all types of weather from heavy fog to pouring down rain.

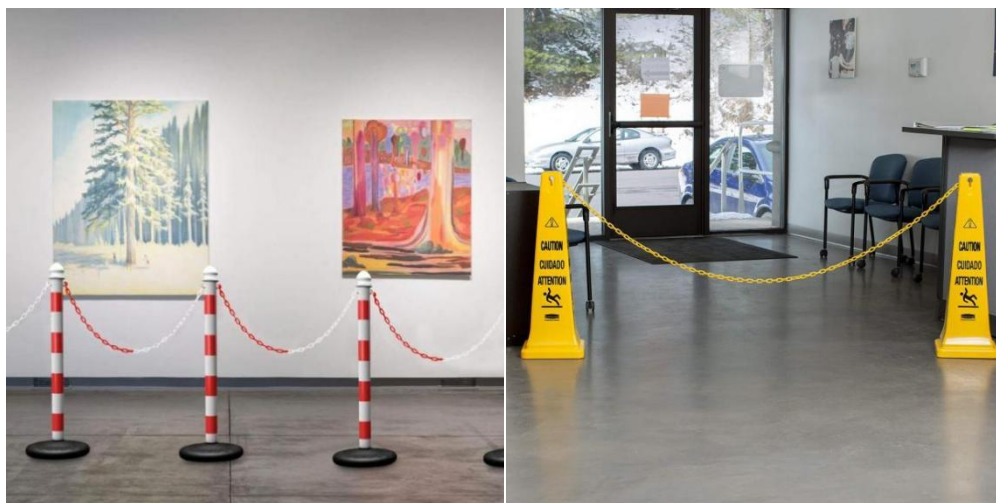

Model 型号	Size 尺寸	Package 包装	Color 颜色	Material 材质	Weight 重量
	5*5*54m	Carton	Red/White/Blue/Yellow/Green	PVC + ABS	130g

Plastic Barrier Chain

Plastic Barrier Chain Links is made of durable high density polyethylene material, lighter and more durable. Even if it is exposed to severe outdoor weather and wind and rain, it will not fade, corrode, or rust.

When you need to use a shorter size, you can customize it very easily.

Model 型号	Thickness 厚度	Color 颜色	Weight 重量	Package 包装

Rubber+ Plastic Cable Protector

Made of commercial grade thermoplastic rubber+ Plastic, this cable ramp protective cover is solid and practical.

Quick & easy cable adding with flip-open top cover.

The individual designed channel maintains organization and thorough protection for each wire.

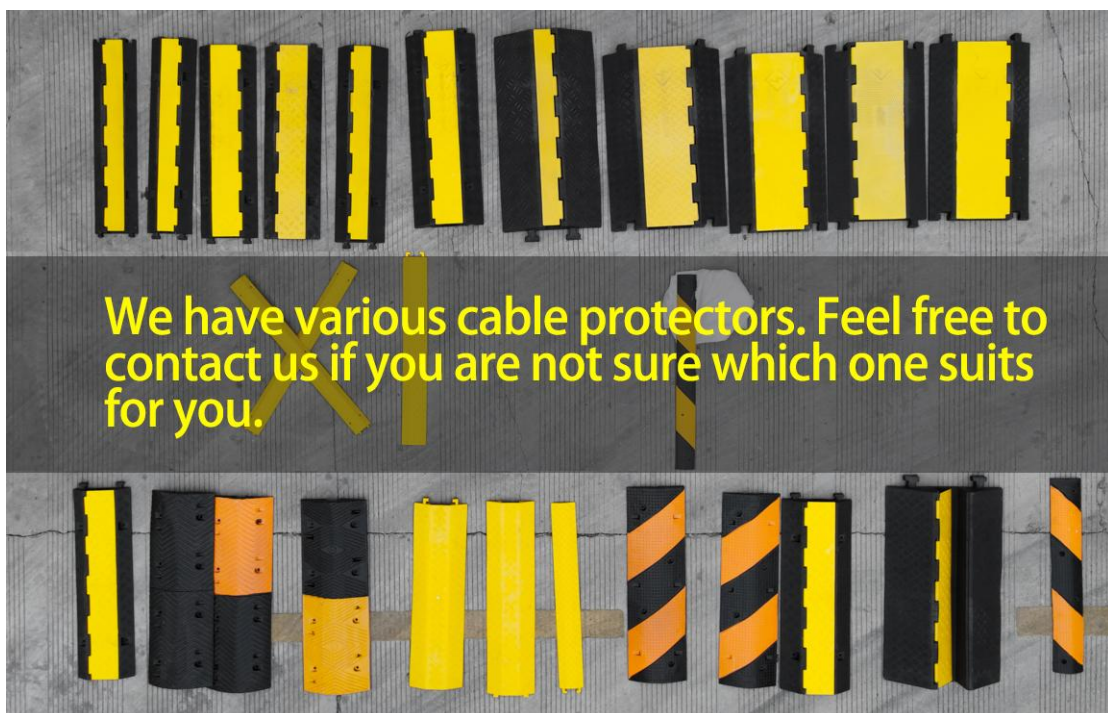

High visible yellow lid with open-up design.

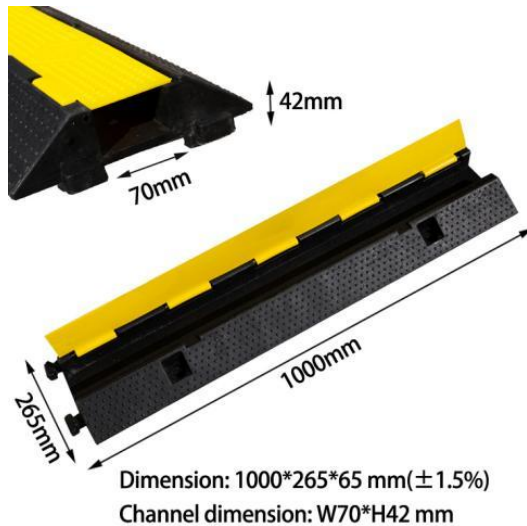

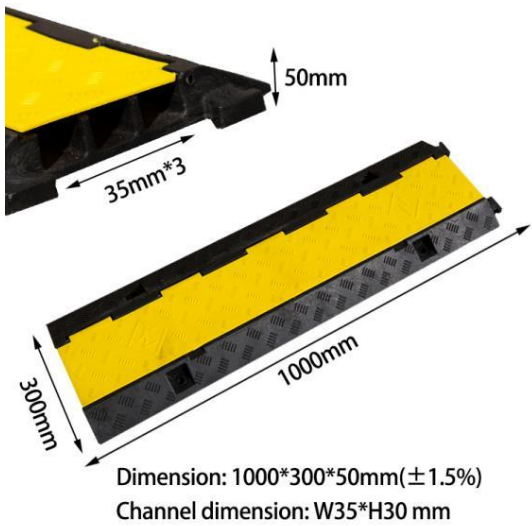

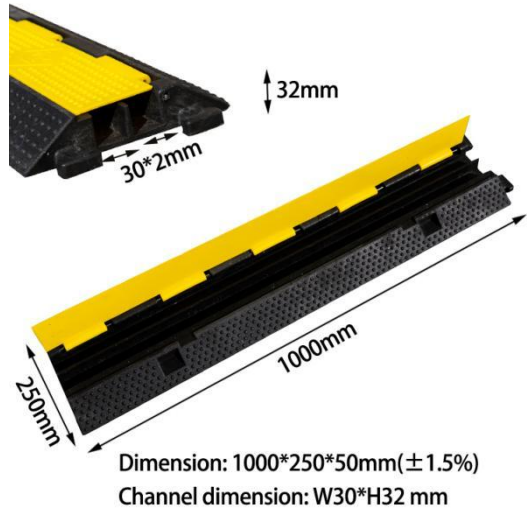

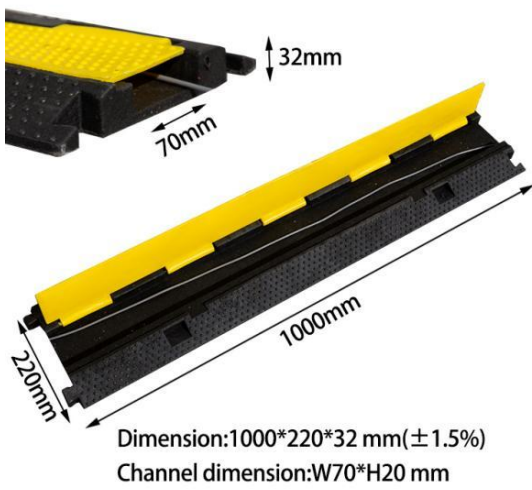

This hose protector ramp is designed with anti-slide textures on the surface to prevent car gliding and provide safety for car drivers.

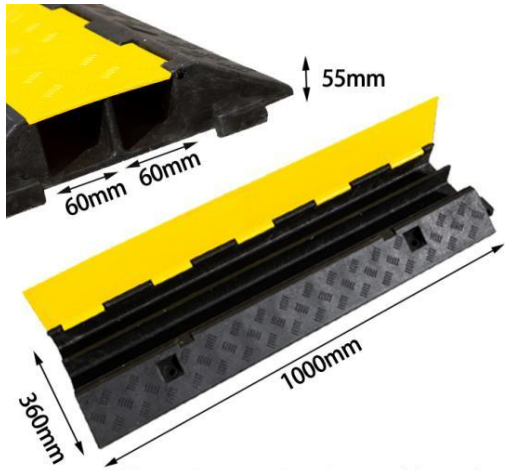

The unique modular design makes the cable protector ramp easy to connect multiple ramps together for spanning larger lengths of cable.

The base has strong stability and can absorb the shock very well. Sloping edges for convenient passage.

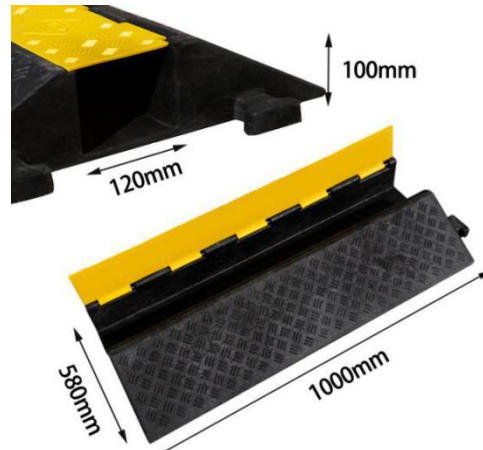

This heavy-duty cable ramp is ideal for parking lots, warehouse, concerts, hotels, stages, shopping mall, sports events, school, community, construction places etc.

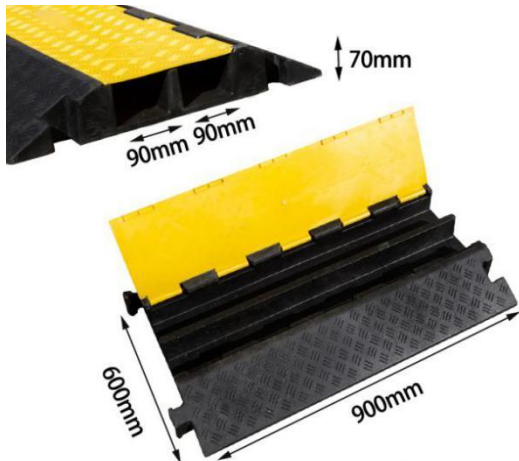

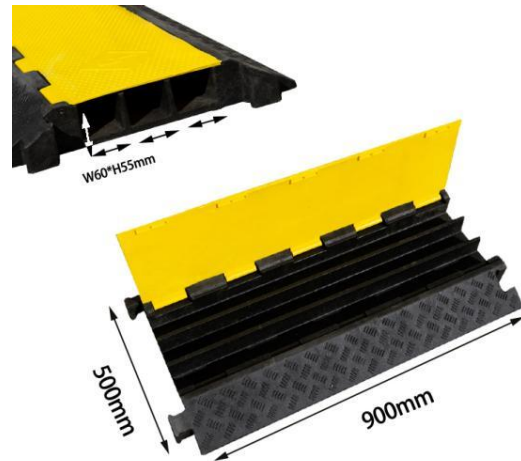

Dimension: 1000*360*70mm ($\pm 1.5\%$)

PC Convex Traffic Mirror

Curved security mirror is made of PC which is soft, lightweight but with strong impact resistant and shatterproof.

Featuring a built-in sun shade/rain cover on the top to help resisting the sun and rain.

Our convex mirror has an ABS plastic backing for resistance to impact and wear, ultraviolet light and extreme temperatures.

Rubber Speed Bump

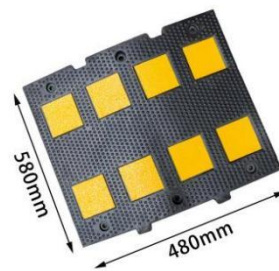

Applicable to: roads, stairs, residents, convenience stores, hotels, garages, parking lots, entrances, shopping centers, road teeth, factories and other areas along the street to facilitate the passage of vehicles.

Easy to carry and transport, can be put in the back box, detachable, will not damage the car tires, can be freely spliced, any combination of length, easy to combine, easy to carry

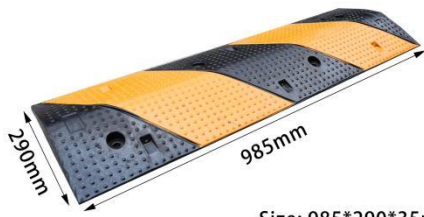

Easy to install, practical, pressure-resistant design, durable bottom shell weight design, improve the compressive strength of the reducer, while reducing the friction at the bottom of the wheel, greatly improving the practical performance

PVC Curb Ramp

High-quality PVC material, pressure resistant, non-slip and strong bearing capacity.

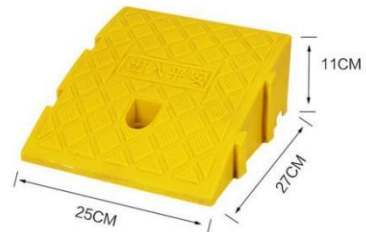

The curb ramp is made of high-quality PVC material, which is pressure resistant, non-slip and strong carrying capacity.

The smaller curb ramp is light in weight and easy to use and carry.

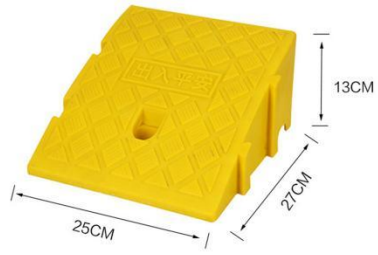

Suitable for cars, suitcases, bicycles, motorcycles, wheelchairs, scooters, etc. Rubber ramp mats can easily help heavy equipment to climb without damaging tires or other parts.

Loading Dock Bumpers

With countersunk holes, it is easy to install on the poured cement foundation.

Each molded rubber bottom bumper is of one-piece design and will not warp, rust or become hard.

Molded rubber dock bumpers are suitable for any dock application with little traffic.

The rubber buffer of the docking station is made of fiber-reinforced primary rubber and nylon. Its impact recovery rate is 95% and the durometer reading is 80.

Maintenance-free, the impact force can be absorbed when the trailer is pressed on the base.

Reflective Guardrail Delineator

It is a kind of traffic safety facility, which is set along the edge of the road, displaying the contour of the road and guiding the normal running of the vehicle. The reflector has a reverse reflection performance.

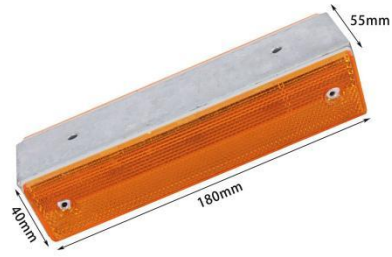

Especially on the highways and roads, when the vehicle runs fast, but in the process of vehicles running in the night, visual distance is shorter, this will greatly reduce the safety of driving, so in order to reach the goal of safe driving, road ahead linear indication is very important. Setting and continuous guardrail reflector is one of the effective means.
