- HDPE shell
- 4-point plastic or webbing suspension harness
- Trip-ratchet or Wheel-ratchet headband adjustment
- Replaceable sweatband

CE

- HDPE shell,I-shape design,
- Soft new PP material for the head hoop,
- Ratchet adjustment knob,tight and reliable,
- 6-point attachment provides impact protection,
- Color can choose blue,yellow,red,orange, green or customized.

Safety helmet

CE

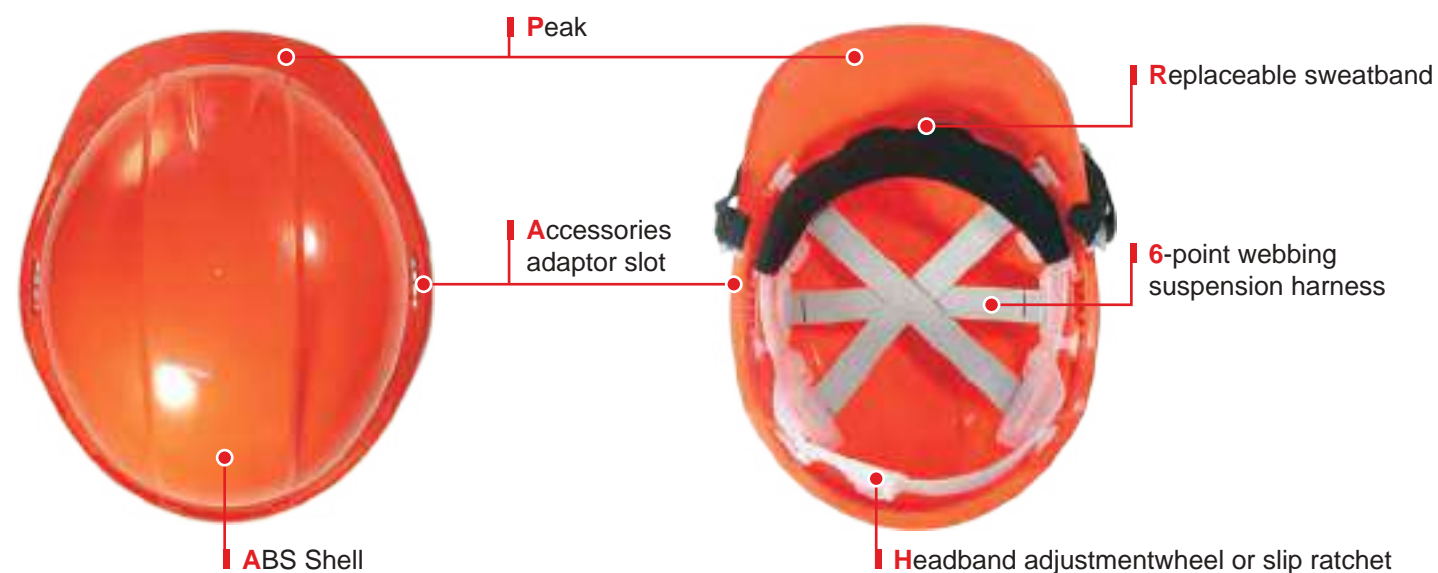

- ABS shell
- 6-point webbing suspension harness
- Strip-ratchet headband adjustment
- Replaceable sweatband
- Comply with CE EN397

HEAD PROTECTION

Hard Hats

Safety helmet

- ABS shell
- 6-point webbing suspension harness
- Strip-ratchet headband adjustment (Push-button or wheel-ratchet adjustment)
- Replaceable sweatband
- Regular chin strap or 4 point chin strap
- Achieved CE EN 397 certificate

Other options:
without vents

4 point chin strap
More stable and safer

For Kids

- ABS shell
- 6 point webbing suspension harness
- Webbing chinstrap
- Weight: 270g
- Harness Size: 43-57 CM
- Shell Size: 24.5*19*12CM
- Specially designed for young children

Improved helmet

- ABS shell
- 6-point webbing suspension harness
- Strip-ratchet headband adjustment
- Replaceable sweatband
- Comply with CE EN397

Short Peak helmet

- HDPE shell
- 6-point webbing suspension harness
- Wheel-ratchet (or strip-ratchet)
- Headband adjustment
- Replaceable sweatband
- Accessories adaptor slot
- 4 point chin strap
- Achieved CE EN397 & UKCA certificates

Safety helmet

- ABS or HDPE shell
- 6-point webbing suspension harness
- Wheel-ratchet (or strip-ratchet)
- Headband adjustment
- Replaceable sweatband
- Accessories adaptor slot
- 4 point chin strap

EYE&FACE PROTECTION

Spectacles

CE

Achieved CE EN166 & ANSI Z87.1 & GB14866 certificates

- Single-piece lens fit perfectly on different face contours
- Wider lens which can be used with prescription glasses
- Wrap-around frameless design
- Ergonomically design temple with indirect ventilation
- Exceptional comfort, protection and fit
- PC LENS :2mm PC Temples

Function: Anti-UV, Anti-scratch, Anti-impact, Anti-fog, Anti-Splash

CE

Achieved CE EN166 & ANSI Z87.1 & GB14866 certificates

- Extremely lightweight
- Modern style with outstanding field of vision
- Rubber nose pads provide comfort and protects against slipping
- Dual-injected temples integrated soft rubber to resist extreme temperature
- PC LENS :2mm PC+Rubber Temples

Function: Anti-UV, Anti-scratch, Anti-impact, Anti-fog, Anti-Splash

CE

Achieved CE EN166 & ANSI Z87.1 & GB14866 certificates

- PC LENS: 2mm Nylon Temples
- Extended sideshield for excellent lateral protection
- High-visibility rubber colour
- Soft temple with high-visibility rubber for different face shape
- Soft and comfortable nose pads, anti-slip

Function: Anti-UV, Anti-scratch, Anti-impact, Anti-fog, Anti-Splash

CE

Achieved CE EN166 & ANSI Z87.1 & GB14866 certificates

- Extremely lightweight and modern design with outstanding visual field and exceptional protection
- Integrated nose bridge providing comfort and precision to any nose shape
- Single-piece lens fitting most face shape
- PC LENS :2mm PC Temples

Function: Anti-UV, Anti-scratch, Anti-impact, Anti-fog, Anti-Splash

CE

Achieved CE EN166 & ANSI Z87.1 & GB14866 certificates

- Single-piece lens fit perfectly on different face contours
- Dual-injected temple with rubber, more stable
- Rubber nose pad added, comfortable and anti-slip
- Extended side shields for excellent lateral protection
- Plate available in EN171 Shade 3.0 & 5.0
- PC LENS :2mm Temples: PC and Rubber

Function: Anti-UV, Anti-scratch, Anti-impact, Anti-fog, Anti-Splash

CE

Achieved CE EN166 & ANSI Z87.1 & GB14866 certificates

- Single-piece lens with integrated side shields
- Exceptional comfort, protection and fit
- Adjustable temple for different face shape
- Hassle-free lens replacement
- PC LENS :2mm Nylon Temples

Function: Anti-UV, Anti-scratch, Anti-impact, Anti-fog, Anti-Splash

CE

Comply with CE EN166 & ANSI Z87.1 & GB14866

- Extremely lightweight and modern design with outstanding visual field and exceptional protection

CE

- Safety helmet match with face shield and ear muff, excellent protection for head, face and hearing.
- Applied for outdoor working like logging work, forestry work.

CE

- Safety helmet match with face shield and ear muff, excellent protection for head, face and hearing.
- Applied for outdoor working like logging work, forestry work.

CE

- Headgear with face shield and ear muff, excellent protection for head, face and hearing.
- Applied for outdoor working like garden working, logging work, Forestry work.

CE

CE

- HDPE headgear, face shield can choose PC or PVC.
- Ratchet adjustment suspension with sweatband for improve comfort.
- Flip up for different viewing angles.

CE

- HDPE headgear, face shield can choose steel mesh.
- Ratchet adjustment suspension with sweatband for improve comfort.
- Flip up for different viewing angles.

CE

- Pet material
- ANTI FOG
- 0.2mm thickness
- Protecting against fluid splashing

CE

- Kickstand adopts ABS.Aluminum material.
- Face shield can choose PC,PVC or Steel mesh.
- Buckle and collapsible band design fits perfectly to various helmets.
- Flip up to adjust 4 viewing angles. Ideal for steel works.
- Aluminum work,furance,logging etc.

EYE&FACE PROTECTION

Visor

Size : 20x39.5cm(8"X15.5")
Thickness : 1.0mm
Material : PVC
Visible light transmittance : 87%
Color : Transparent

Size : 20x39.5cm(8"X15.5")
Thickness : 1.0mm
Material : PVC
Visible light transmittance : Can filter more than 99% of ultraviolet light
Color : Black

Size : 20x39.5cm(8"X15.5")
Thickness : 1.0mm
Material : PETG
Fitting : 11-hole
Visible light transmittance : 90%
Color : Transparent

Impact Resistance Wtrench:

B Grade.Can resist a diameter 6mm steel ball by 120m/s high-speed launch and impact the safety mask.And the safety mask not penetrate,not ruptureand not fall off for keeping safe the users.And the same shock strength in an environment which high templeture 55°C or low temperature -5°C.

Size : 20x39.5cm(8"X15.5")
Thickness : 1.0mm
Material : PVC
Visible light transmittance : 90%
Color : Transparent

Impact Resistance Wtrench:

B Grade.Can resist a diameter 6mm steel ball by 120m/s high-speed launch and impact the safety mask.And the safety mask not penetrate, not ruptureand not fall off for keeping safe the users.And the same shock strength in an environment which high templeture 55°C or low temperature -5°C.

Size : 20x39.5cm(8"X15.5")
Thickness : 1.0mm
Material : PETG
Fitting : 9-hole
Visible light transmittance : 90%
Color : Transparent

Impact Resistance Wtrench:

B Grade.Can resist a diameter 6mm steel ball by 120m/s high-speed launch and impact the safety mask.And the safety mask not penetrate,not ruptureand not fall off for keeping safe the users.And the same shock strength in an environment which high templeture 55°C or low temperature -5°C.

Size : 20x39.5cm(8"X15.5")
Thickness : 1.5mm
Material : PVC
Visible light transmittance : 89%
Color : Transparent

Impact Resistance Wtrench:

B Grade.Can resist a diameter 6mm steel ball by 190m/s high-speed launch and impact the safety mask.And the safety mask not penetrate, not ruptureand not fall off for keeping safe the users.And the same shock strength in an environment which high templeture 55°C or low temperature -5°C.

Size : 20x38.5cm(8"X15.5")
Material : Non-glare black mesh steel
SPEC : wire diameter 0.35mm.
mesh count 24 mesh/inch
Aluminum side reinforcement : No(Plastic side reinforcement)

Impact Resistance Wtrench:

Can resist a diameter 22mm steel ball (Weight : 43g) by 5.1m/s speed launch and impact the safety mask.And the safety mask not penetrate, not rupture and not fall off for keeping safe the users.

RESPIRATORY PROTECTION

Dust Masks

EN149:2001+A1:2009 Module B / Module D

CE 2797

Regulation (EU) 2016/425
By BSI Group The Netherlands B.V.

UK 0086

Regulation (EU) 2016/425 as brought into UK law and amended
By BSI Assurance UK Ltd

Classification	FFP1 NR	FFP2 NR	FFP3 NR
Filtration efficiency	≥ 80%	≥ 94%	≥ 99%

【PRODUCT FEATURES】

These masks are intended to be used for protection against solid and liquid aerosols in mining, casting, agriculture, wood, metal burnishing, polishing and cutting, cement, hardware factory, textile, construction and painting, etc.

FFP1 NR/ FFP1 NR D*

Filters at least 80% of airborne particles.

FFP1 NR/ FFP2 NR D*

Filters at least 94% of airborne particles.

FFP1 NR/ FFP3 NR D*

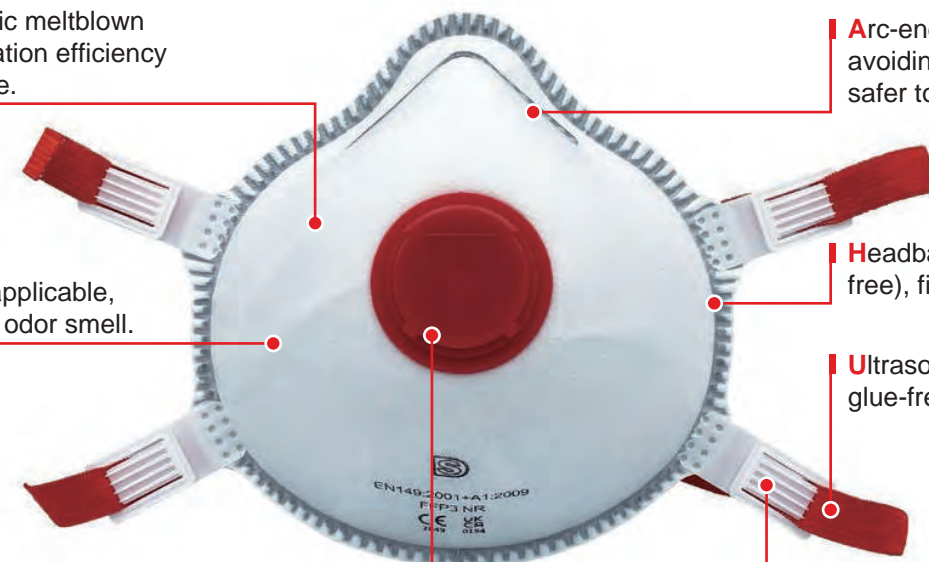

Filters at least 99% of airborne particles.

D* Mask resistant to clogging in time improving comfort of use.

Strong electrostatic meltblown provides high filtration efficiency and low resistance.

Active carbon, if applicable, can better reduce odor smell.

Exhalation valve, if applicable, can moisture out and reduce breath resistance.

Arc-ends design of nose clip, avoiding scratching the face, safer to wear.

Headband design style (Latex free), fit close to the face.

Ultrasonic welding technology, glue-free and odorless.

Adjustable headband, if applicable, can better fit the face.

Medical Mask

	EN14683 Type IIR	FDA 510k Level II
BFE (Bacterial Filtration Efficiency)	≥ 98%	≥ 95%
Splash Resistance / Synthetic Blood Resistance	16.0 kPa (120mmHg)	120 mmHg

Made of 3 layers of non-woven material and round elastic ear loop.
Unique form fitting design nose clip, adjustable to fit as per the shape of the nose for proper seal and comfort.
Ultra-sonic welding, extremely safe and hygienic style.
Applicable in hospitals, dental, hotels, industries, laboratories, food industries and other environment.
Two Sizes: for adult: 17.5x9.5cm; for kids: 14.5x9.5cm.

CE

Single Cartridge, more economical

- The frame is made of TPR, provides you better leakproofness
- With different filter, can be used in different working environment

CE

Double Cartridge, better protection for users

- The frame is made of TPR, provides you better leakproofness
- With different filter, can be used in different working environment

Activated carbon filter

CE

ABS shell

- 3# or 7# activated carbon: 40g
- Melt-blown nonwoven and filter cotton on both sides
- Instruction and warning sticker outside

Filter Type	For Use Against	Colour Code
3	organic gas	Yellow
4	NH3 sulfnreted hudrogen	Gray
6	HG steam	Black
7	acid gas	Brown

Dust mask

Triangle gauze filter mask

- Lightweight, easy for use
- PE and PVC frame, meet ROHS standard
- Active carbon filter and melt-blown nonwoven inside, dust proof and low-to-
- Active carbon filter is replaceable.

RESPIRATORY PROTECTION

Respirator

- Single Cartridges
- TPR or silicone frame, provides you better leakproofness
- Durable elastic band
- Adjustable headband, more comfortable for users
- Excellent sealing and easy exhaling
- With different filter, can be used in different working environment

- Double Cartridges, provides longer service time
- TPR frame, provides you better leakproofness
- Durable elastic band
- Adjustable headband, more comfortable for users
- Excellent sealing and easy exhaling
- With different filter, can be used in different working environment

- Double Cartridges,provides longer service time
- TPR or silicone frame, provides you better leakproofness
- Durable elastic band
- Adjustable headband, more comfortable for users
- Excellent sealing and easy exhaling
- With different filter, can be used in different working environment

- Double Cartridges,provides longer service time

- With different filter,can be used in different working environment

Activated carbon filter

- ABS shell
- 3#, 6# or 7# activated carbon: 40g
- Melt - blown nonwoven and filter cotton on both sides
- Instruction and warning sticker outside

Filter Type	For Use Against	Colour Code
3	organic gas	Yellow
4	NH3 sulfnreted hudrogen	Gray
6	HG steam	Black
7	acid gas	Brown

Activated carbon filter

- ABS shell
- 3#, 6# or 7# activated carbon: 60g
- Melt - blown nonwoven and filter cotton on both sides
- Instruction and warning sticker outside
- Must be used with FD-3 or FD-4 mask

RESPIRATORY PROTECTION

Respirator

Activated carbon filter

- ABS shell
- 3#, 6# or 7# activated carbon: 75g
- Melt - blown nonwoven and filter cotton on both sides
- Instruction and warning sticker outside
- Must be used with FD-3 or FD-4 mask

Advanced dust filter

- Unique shell design, provides protection against liquid splash
- Light weight, more comfortable for using
- Special air duct design, 360° air intake
- With efficient electrostatic filter cotton inside, filter most kinds of particulate matter
- Must be used with FD-3 or FD-4 respirator

Dust cotton filter

Classical dust filter

- Large area contact with air, easy to breathe
- Light weight, more comfortable for using
- Professional dust proof design, efficiently filter dust and haze
- With efficient electrostatic filter cotton inside, filter most kinds of particulate matter
- Must be used with FD-3 or FD-4 respirator

Mechanical Gloves

CE

- PU palm is washable and durable, retaining perfect tactility & softness
- Stretch-spandex back offers exceptionally dexterity
- Dual shirred elastic wrist for great fit
- Elastic band cuff and Velcro adjustment ensure firm fitting
- Size: S-XXL
- Best Uses: Assembly, Electrician, Equip & operation Gardening, Handtools, Machinists, DIY, Plumbing

CE

- PU palm is washable and durable, retaining perfect tactility & softness
- 3D Mesh fabric wicks sweat while allowing maximum airflow
- Elastic band cuff and Velcro adjustment ensure firm fitting
- Size: S-XXL
- Best Uses: Assembly, Electrician, Equip & operation Gardening, Handtools, Machinists, DIY, Plumbing

CE

- Synthetic leather palm with high abrasion resistance level combines with breathable, durable & washable performance.
- 3D Mesh fabric wicks sweat while allowing maximum airflow
- PU patch on palm & fingers strengthen its slip resistance
- Elastic band cuff and Velcro adjustment ensure firm fitting, pair connecting clip
- Size: S-XXL
- Best Uses: Assembly, Electrician, Hand tools, Impact tools, Machinists, Vibrating tools, Camping, DIY

CE

- Synthetic leather palm with high abrasion resistance level combines with breathable, durable & washable performance.
- Neoprene padding on palm softens use of tools with excellent vibration resistance
- Pre-curve fingers for great fit and grip
- Foam padding knuckle abates abrasion and slight shock in task
- Two layers stretch-spandex back offers exceptionally dexterity
- Fashion designed PVC adjustment offers extra protection against tough environment
- Size: S-XXL
- Best Uses: Hand tools, Power tools, Vibrating tools

CE

- Synthetic leather palm with high abrasion resistance level combines with breathable, durable & washable performance. Double sewing lines make it stronger.
- Water repelling Neoprene back tough but flexible and durable with excellent water performance levels
- Elastic band cuff and Velcro adjustment ensure firm fitting
- Size: S-XXL
- Best Uses: Cold weather, Sailing, Fishing

CE

- Synthetic leather palm with high abrasion resistance level combines with breathable, durable & washable performance.
- Stretch-spandex back offers exceptionally dexterity
- Shirred elastic back for snug fit
- Size: S-XXL
- Best Uses: Assembly, Electrician, Hand tools, Impact tools, Machinists, Vibrating tools, Camping, DIY

CE

- Synthetic leather palm with high abrasion resistance level combines with breathable, durable & washable performance.
- Pre-curve fingers for great fit and grip
- Breathable Foam padding palm softens the use of tools with good performance of anti-vibration
- Flexible Neoprene knuckle and cuff design makes you comfortable
- Velcro adjustment for great fit
- Size: S-XXL
- Best Uses: Assembly, Carpentry, Driver/Delivery, Forestry, Rigging, Extrication/Search & Rescue, DIY

CE

- Synthetic leather palm with high abrasion resistance level combines with breathable, durable & washable performance.
- Silicone on full palm for exceptionally grip and slip resistance
- Pre-curve fingers for great fit and grip
- Flexible Neoprene knuckle design makes you comfortable
- Velcro adjustment for great fit
- Size: S-XXL
- Best Uses: Assembly, Carpentry, Driver/Delivery, Forestry, Rigging, Extrication/Search & Rescue, DIY

CE

- Synthetic leather palm with high abrasion resistance level combines with breathable, durable & washable performance.
- 3D Mesh fabric wicks sweat while allowing maximum airflow

- Cow split leather welding glove is exceptionally durable and puncture resistant,protecting hands from heat and spark
- Two pieces back
- SIZE:13/14/15/16
- BEST USES:Welding,Smelting

HAND PROTECTION

Dipping Gloves

CE

- Nitrile coating on nylon seamless liner shows good levels of mechanical performance
- Light coating gives improved flexibility and dexterity
- Nitrile coated for oil and grease resistance
- SIZE: S/M/L/XL
- BEST USES: Chemical performance, Glass and stoneware work condition, DIY (painting), Used at gas station

CE

- Nitrile coating on nylon seamless liner shows good levels of mechanical performance
- Anti-slip Nitrile flexible and feasible in moist environment
- Nitrile coated for oil and grease resistance
- SIZE: S/M/L/XL
- BEST USES: Chemical performance, Glass and stoneware work condition, DIY (painting), Used at gas station

CE

- Oil and grease repellant Nitrile coating gives good abrasion and tear-resistance
- Anatomical hand shape for a comfortable fit
- Nitrile coated for oil and grease resistance
- SIZE: S/M/L/XL
- BEST USES: Chemical performance, Glass and stoneware work condition, DIY (painting), Used at gas station

CE

- Unbreathable foam Nitrile coating on Nylon seamless liner shows good levels of mechanical performance
- Excellent grip in wet or dry conditions
- Nitrile coated for oil and grease resistance
- SIZE: S/M/L/XL
- BEST USES: Chemical performance, Glass and stoneware work condition, DIY (painting), Used at gas station

CE

- U3 Nitrile coating on Nylon seamless liner increases comfort level
- Dark colour combination designed to keep the glove "cleaner" for longer
- Nitrile coated for oil and grease resistance
- SIZE: S/M/L/XL
- BEST USES: Chemical performance, Glass and stoneware work condition, DIY (painting), Used at gas station

CE

- Sandy Nitrile coating on Nylon seamless liner show antislip function
- Dark colour combination designed to keep the glove "cleaner" for longer
- Nitrile coated for oil and grease resistance
- SIZE: S/M/L/XL
- BEST USES: Chemical performance, Glass and stoneware work condition, DIY (painting), Used at gas station

CE

- Superior breathable sponge Nitrile coating keeps hands cool and dry
- Dark colour combination designed to keep the glove "cleaner" for longer
- Nitrile coated for oil and grease resistance
- SIZE: S/M/L/XL
- BEST USES: Chemical performance, Glass and stoneware work condition, DIY (painting), Used at gas station

CE

- Tough Nitrile coating on fluorescent 100% brushed cotton liner show good levels of mechanical performance Remains flexible in cold temperature
- PVC wrist closure for easy on and off
- Knit wrist
- SIZE: S/M/L/XL/XXL
- BEST USES: Chemical performance, Glass and stoneware work condition, DIY (painting), Used at gas station, Forestry, Plumbing, Ranching

CE

- Foam sponge Nitrile on seamless Nylon liner provides hands maximum comfort
- Very Light, flexible and dexterous coating yet good levels of mechanical performance
- Nitrile coated for oil and grease resistance
- SIZE: S/M/L/XL
- BEST USES: Chemical performance, Glass and stoneware work condition, DIY (painting), Used at gas station

CE

- Super Light micro foam Nitrile on nylon seamless liner provides hands maximum comfort Breathable coating keeps hands cool and dry
- SIZE: S/M/L/XL
- BEST USES: Chemical performance, Glass and stoneware work condition, DIY (painting), Used at gas station

CE

- Touch Nitrile coating offer good wet and dry grip Anatomically designed hand shape ensures a good fit Good resistance to abrasion, cut, puncture and tear
- Fully coated and gauntlet style for added protection
- SIZE: S/M/L/XL
- BEST USES: Chemical performance, Glass and stoneware work condition, DIY (painting), Used at gas station, Forestry, Plumbing, Ranching

CE

- Oil and grease repellant Nitrile coating gives good abrasion and tear resistance
- Anatomical hand shape for a comfortable fit
- Nitrile coated for oil and grease resistance
- SIZE: S/M/L/XL
- BEST USES: Chemical performance, Glass and stoneware work condition, DIY (painting), Used at gas station, Forestry, Plumbing, Ranching

HAND PROTECTION

Leather Gloves

CE

- Tough Nitrile coating and jersey liner provides hands maximum comfort
- Anatomically designed hand shape ensures a good fit good resistance to abrasion, cut, puncture and tear
- SIZE: S/M/L/XL
- BEST USES: Chemical performance, Glass and stoneware work condition, DIY (painting), Used at gas station, Forestry, Plumbing, Ranching

CE

- Light but tough Nitrile coating comfortable to wear for long periods of time
- Anatomical hand shape for a close fit
- Gauntlet styles for added protection
- SIZE: S/M/L/XL
- BEST USES: Chemical performance, Glass and stoneware work condition, DIY (painting), Used at gas station, Forestry, Plumbing, Ranching

CE

- Tough coating of Latex on knitted liner show good levels of mechanical performance
- Excellent grip in wet or dry conditions good resistance to abrasion
- Knit wrist
- SIZE: S/M/L/XL
- BEST USES: Construction (Drywall), Forestry, Landscaping/Gardening, Plumbing, Ranching, DIY (painting)

CE

- Latex coating on Nylon seamless liner offer extra grip
- Dark colour combination designed to keep the glove "cleaner" for longer
- Good resistance to abrasion
- Knit wrist
- SIZE: S/M/L/XL
- BEST USES: Construction (Drywall), Forestry, Landscaping/Gardening, Plumbing, Ranching, DIY (painting)

CE

- Tough Nitrile coating and jersey liner provides hands maximum comfort
- Anatomically designed hand shape ensures a good fit good resistance to abrasion, cut, puncture and tear
- Fully coated styles for added protection
- SIZE: S/M/L/XL
- BEST USES: Chemical performance, Glass and stoneware work condition, DIY (painting), Used at gas station, Forestry, Plumbing, Ranching

CE

- Kevlar string glove performing high tenacity but low heat conductivity provides the best protection in flame-resistance and cut-resistance
- Latex coated for good wet and dry grip and puncture-resistance
- Knit wrist
- SIZE: S/M/L/XL
- BEST USES: Assembly, Baggage handler, Military, Extrication/Search & Rescue, Sheet metal, Glass industry

CE

- Latex coating on fluorescent Nylon seamless liner remains flexible in cold temperature
- Crinkle finish for good wet and dry grip
- Flat dipping technology keeps the back of the hand well ventilated and cool
- Knit wrist
- SIZE: S/M/L/XL
- BEST USES: Construction (Drywall), Forestry, Landscaping/Gardening, Plumbing, Ranching, DIY (painting)

CE

- Foam Latex coating on fluorescent Nylon seamless liner provides hands maximum comfort
- Breathable coating keeps hands cool and dry
- SIZE: S/M/L/XL
- BEST USES: Construction (Drywall), Forestry, Landscaping/Gardening, Plumbing, Ranching, DIY (painting)

CE

- Kevlar string glove performing high tenacity but Low heat conductivity provides the best protection in Flame-resistance and cut-resistance
- Nitrile coated for good wet and dry grip and oil and grease resistance Knit wrist
- SIZE: S/M/L/XL
- BEST USES: Assembly, Baggage handler, Military, Extrication/Search & Rescue, Sheet metal, Glass industry

CE

- Crinkle coating of Latex on knitted liner for good wet and dry grip
- Flat dipping technology keeps the back of the hand well ventilated and cool
- Knit wrist
- SIZE: S/M/L/XL
- BEST USES: Construction (Drywall), Forestry, Landscaping/Gardening, Plumbing, Ranching, DIY (painting)

CE

- Foam Latex coating on environment friendly bamboo fiber seamless liner provides hands maximum comfort
- Flat dipping technology keeps the back of the hand well ventilated and cool
- Knit wrist
- SIZE: S/M/L/XL
- BEST USES: Construction (Drywall), Forestry, Landscaping/Gardening, Plumbing, Ranching, DIY (painting)

CE

- HPPE string glove for excellent cut-resistance
- Super fit PU dipped for acid and alkali
- Knit wrist
- SIZE: S/M/L/XL
- BEST USES: Assembly, Baggage handler, Military, Extrication/Search & Rescue, Sheet metal, Glass industry

HAND PROTECTION

Leather Gloves

CE

- Flexibility and dexterity PU coating on Nylon seamless lining offer good levels of mechanical performance
- Gauntlet styles for added protection
- Minimal strikethrough reduces irritation and increases comfort level
- Knit wrist
- SIZE: S/M/L/XL
- BEST USES: Gardening, Plumbing, Ranching, Electrical performance, DIY (painting), Used at gas station

CE

- Flexibility PU coating on Nylon seamless lining and double dipped fingers offer good levels of mechanical performance Gauntlet styles for added protection
- Breathable Nylon lining keeps hands cool and dry
- Knit wrist
- SIZE: S/M/L/XL
- BEST USES: Gardening, Plumbing, Ranching, Electrical performance, DIY (painting), Used at gas station

CE

- Tough PVC coated
- Good wet and dry grip
- Anatomically designed hand shape ensures a good fit
- Knit wrist
- SIZE: S/M/L/XL
- USES: Baggage handler, Construction (Drywall), Forestry, Landscap/Gardening, Plumbinf, Ranching, Chemical industry

CE

- Tough PVC style, long cuff for extra protection
- PVC coated for chemical, grease resistance
- SIZE: 27/30/35/40CM
- BEST USES: Baggage handler, Construction (Drywall), Forestry, Landscap/Gardening, Plumbinf, Ranching, Chemical industry

CE

- White PU coating colored Nylon seamless lining offer more choice of style
- Gauntlet styles for added protection
- Breathable Nylon lining keeps hands cool and dry
- Knit wrist

REFLECTION PROTECTION

FOCUS ON DETAILS

To ensure workwear comfortable and safe. It's important to couple with premium fabrics and technical details.

The purpose to wear hi-visibility garments is to ensure maximum visibility in any working conditions, such as evening, rainy day, snowy day etc.

TECHNICAL DETAILS

Full front zipper, elasticized waist and cuffs ward off wind and snow.

Sealing strip can keep out water.

Stretch and reinforced panels allow ease of movement with added durability.

REFLECTION PROTECTION

TESTING

Raw materials including fabric, reflective tape, accessories will be tested before production.

The average minimum coefficient of retroreflective for our reflective tape is above 380 cd/(lx·m²). Color and colorfastness of fluorescent fabric can reach standard.

ANSI/ISEA 107 is an American National Standard for High-Visibility Safety Apparel. EN ISO 20471 High Visibility Clothing --Test Methods and Requirements is an international standard used by European market. Both reach standards of specific performance requirements, including color, retroreflection, physical properties and minimum areas of background, retroreflective materials, as well as the recommended configuration of the materials.

LEG&FOOT PROTECTION

Safety Shoes

Penetration Resistance (Steel or Kevlar)

When workers could step on sharp objects or be struck by sharp objects from above, shoes with steel midsole or Kevlar and thick materials surrounding the foot offer the best protection. At construction work sites, for example, many sharp objects could be in someone's path. A soft-soled shoe might not provide enough protection.

Steel Toe

The steel toe in the toe which protects the foot from falling objects or compression. When workers carry heavy materials or work in dynamic environments where many people, machines and vehicles are operating at once, falling and flying objects are common hazards. Protective shoes like steel toe boots can effectively prevent crushing.

Shock Absorption

The sole material makes the safety shoes extremely shock absorbing and comfortable to wear. Every time you take a step, the sole absorbs the shock that would otherwise propagate in the legs and back. It gives a walking comfort beyond the usual-even on hard surfaces and after many hours on one's feet.

Anti - static

With this performance, these shoes have the ability to dissipate on the ground the electrostatic tension accumulated in the body, thus avoiding electric shocks and sparks. In working environments where there is risk of explosions, the need to have such dissipation becomes vital, therefore conductive shoes are used instead of those simply anti static.

Oil Resistant

Oil resistant safety boots refer to safety footwear that are entirely designed not to be damaged by oil. They can perform their intended function when exposed to oil due to oil-resistant elastomers to absorb oil, especially at elevated temperatures.

Insulation

According to the OSHA and ASTM standards, heat-resistant safety shoes are shoes that can withstand the heat of about 300°C for about 60 seconds. It should also be able to protect you from heat emitted by different sources.

Heat Resistant Outsole

To reduce the chances of an electrical accident, non-conductive footwear made from leather, rubber or other materials that don't conduct electricity can be worn. In locations where the build-up of static on the body poses a hazard, anti-static or conductive footwear can be used. These options reduce the amount of static that accumulates on the body, preventing static electric sparks.

Lightweight

Lightweight safety boots maximize on their ergonomic construction. That is, they shift excessive pressure off your feet as you stand or move around for hours. Hence, you won't sprain your back, knees, or ankles.
